

# NES Company Inc. Engineered Systems

## Overview

NES Company Inc. engineers have decades of experience designing, building, and troubleshooting NASH liquid ring vacuum systems. Our extensive industry experience and unmatched production capabilities mean we have the ability to provide unique solutions for many industrial vacuum applications.

## Capabilities

- Liquid ring system design: skid mounted packages including controls & fluid management.
- Reverse engineering, reproduction & replacement of obsolete pumps & components.
- Troubleshooting & performance testing.
- Pump selection.
- Efficiency consulting.

## Types of systems & equipment

- Partial & full seal fluid recovery systems.
- Heat exchangers: shell & tube, plate & frame, air cooled.
- Special materials for corrosion resistance.
- Corrosion coatings.
- Special mechanical seals.
- Oil filled systems.
- Factory & field performance testing.
- All types of drive systems including gear box and engines.
