

## Chef's Puppy Complete - Vitamin and Trace Mineral Mix

A nutritional supplement for homemade recipes recommended by your veterinary nutritionist. This mix contains essential nutrients - nothing more, nothing less.

### Features and Benefits:

- Compare with BalancelT
- Hypoallergenic ingredients
- No ingredients from China
- Easy measure scoop included
- Can be gently reheated
- Minimal, pleasant odor to help with palatability
- Designed for even distribution throughout homemade food batches

## Instructions

- **Use only under veterinary supervision.**
- See page three for recommended feeding guidelines.
- Thoroughly mix the Chef's Puppy Complete for even distribution throughout the food.
- Do not use in combination with any other vitamin or mineral supplements.

\* Contact your veterinarian or veterinary nutritionist to ensure you are using the correct amount to meet your puppy's unique needs.

## Nutrient Analysis (as fed)

Water	1.4%
Protein	1.0%
Fiber	0.1%
Fat	0.03%
CHO	0.3%
Ash	88.2%
Chloride	12.6%
Calcium, min.	18.4%
Phosphorus	12.2%
Magnesium	0.8%
Potassium	7.2%
Salt, min.	10.3%
Sodium	4.2%
Vitamin A	59.0 KIU/lb.
Vitamin D3	6.4 KIU/lb.
Vitamin E	1,644.3 IU/lb.
Thiamine	71.5 ppm
Riboflavin	160.0 ppm
Pantothenic Acid	184.1 ppm
Niacin	273.7 ppm
Folic Acid	7.9 ppm
Choline	16,150.1 ppm
Vitamin B6	32.9 ppm
Vitamin B12	0.6 ppm
Iron	1,751.9 ppm
Manganese	128.1 ppm
Zinc, min.	2,683.7 ppm
Copper	271.3 ppm
Iodine	34.9 ppm
Selenium	5.4 ppm
Taurine	2.5%

## Feeding Guidelines

Body Weight		Resting kcal/day	Maintenance kcal/day	# of Scoops** (1 scoop = 5g)
lbs	kg			
10	4.5	218	436	2
20	9.1	366	733	3
30	13.6	497	993	4
40	18.2	616	1,233	5
50	22.7	729	1,457	6
60	27.3	835	1,671	7
70	31.8	938	1,876	8
80	36.4	1,037	2,073	9

\*\*The calculated number of scoops is based on the following assumptions:

1. Healthy pups will require resting kcal x 2.0 for daily calorie intake
2. Homemade recipes that are the most challenging to balance, such as beef or lamb with white potato and a few veggies, need about 3.0-3.4% as fed of Chef Puppy Complete in order to get "balanced."

Pet owners feeding a homemade recipe should consult with a qualified and experienced nutritionist for specific help in balancing their pet's formula.

Pets who are fed a homemade recipe should be evaluated by their family veterinarian at least three times per year. A careful review of diet ingredients and supplements should be conducted at each evaluation.

## Unconditional Guarantee

If you are not completely satisfied with this product, for any reason, we'll gladly replace the order or refund your money.
