Nelson Treasure Chests Double Row, Raised Bottom Models

Features:

All Digital, All the Time. Electronic thermostats included in all Nelson dipping cabinets takes the guess work out of the perfect temperature setting. T-stats adjust from -30 to +30 degrees.

Front Breathing cabinets allow for flexibility in proper placement in cabinetry or against a wall. BD12& BD14 require rear venting.

Permanent Stainless Steel Gaskets never need replaced.

SPECIFICATIONS:

- One piece 22 ga. 304 stainless steel, all corners welded (no corner pieces or raw edges, ever),
- Galvanized steel reinforced sub-top beneath the stainless top,
- Anti-condensate heater wires on galvanized sub-top to prevent condensation on cabinet top,
- 24 ga stainless steel interior. Optional 22 ga. 304 stainless steel exterior,
- Copper tubing cold wall type evaporator attached to liner wall,
- Forced air condensing unit (clog free design on all BD models) on glide-out base for efficient operation and built-in applications,
- Base of cabinet to be constructed of 16 ga. Galvanized steel,
- Poured-in place urethane foam insulation with a minimum "K" factor of .13, Lids to be stainless steel top with poured urethane foam insulation and hinged in the center with rubber handles,
- Freezer lid gaskets to be of a molded, one piece, high impact grade ABS plastic, Cabinet to be equipped with a 7-ft power cord, 3 wire, grounded, dead front construction,
- Unit NSF & UL and/or ETL approved.
