

THE MODEL TWENTY-PLUS

is a Model Twenty; the Plus is cosmetics, pure and simple.

DIMENSIONS (Heights include pedestals): Control Center: 20½" W x 23¾" H x 15¼" D.

Speaker Cabinets, each: 19" W x 23¾" H x 15¼" D.

SUGGESTED PRICE: \$525.00.

THAT'S not unusual in our business; though perhaps telling you about it is.

The Model Twenty-Plus was designed to stand on its own three feet as furniture (its speakers to double as occasional tables if you like) without compromising the quality of its sound.

We believe it is a more reasonable solution to the furniture-music dilemma than those six-foot long chests that happen to have electronics in them.
