

The ONKYO Grand Integra P-308 and M-508

For the serious audiophile searching for musicality, transparency and control flexibility at an affordable cost, Onkyo presents the Grand Integra P-308 pre-amplifier and M-508 power amplifier.

The M-508 delivers the promise of power and musicality, using the same design concepts first offered in our remarkable M-510 amplifier.

Incorporating Onkyo's Real Phase technology, the dual mono 200 watt per channel M-508 impressively drives even the most complex speaker systems.

The P-308 disproves the axiom that pre-amplifiers can offer either control flexibility or superb sound quality, but not both. The P-308 offers unmatched system control flexibility, together with technological refinements such as shielded power supplies, special signal path routing, and passive tone equalization with full bypass capability.

Audition the separates that are in a class by themselves at your Onkyo Grand Integra Dealer today, or write to Onkyo for detailed information about these remarkable new components.
