natch®

Natural Toothpaste Tabs

Innovative Toothpaste, powered by Nature.

We are Natch from Berlin. We have reinvented toothpaste. Sustainable and super tasty, Natch combines the superpowers of Mother Nature in an easy to use toothpaste tablet. Free from aggressive ingredients and plastic, we want to inspire you to have a healthy and sustainable lifestyle.

Heber & Norbert, Founders of Natch

How to Natch:

Inhale

Open the bottle and enjoy an aromatherapy moment. Each formula is unique and touches your senses.

Crush

Take a tab and chew it with your front teeth until it forms a creamy paste.

Brush

Save water and clean with a dry brush. As always, two or more minutes.

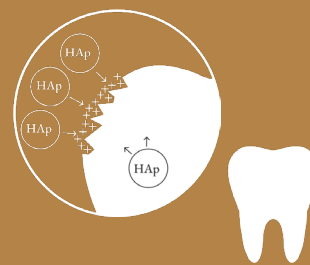

Enjoy!

We recommend not rinsing immediately. The longer HAp* stays on your teeth, the better they are protected.

Did you know?

*Natch is enriched with calcium hydroxyapatite (HAp), the healthy alternative to fluoride. HAp helps to remineralize your teeth and fight tooth decay.

HAp

Screaming Polar Bear

Brushing your teeth with a freshness boost
An incredibly refreshing blend of organically grown peppermint. Rich in antimicrobial properties and natural plant oils.
