

GC3 Security & Home Automation System

Model #: 2GIG-GC3-345

Nortek Security & Control is pleased to announce the availability of the new 2GIG GC3 Security & Automation System. The GC3 is the most capable and robust security & home control system that 2GIG® has ever made. With a 7" color, capacitive touch screen and a full upgrade to the user-interface, homeowners will love how much faster and easier it is to use, and dealers will appreciate how much time they'll save during installation. User Interface improvements include single-screen zone programming, elimination of unnecessary or redundant steps, One-Touch Arming, and easy-to-see Status. These features, along with many others, make the GC3 customer experience the easiest, most intuitive of any security and control system in the industry. Period.

FAQs

Q. What is the 2GIG GC3?

A. The GC3 is the premium security and automation panel in the 2GIG product family, designed to enhance your lifestyle and protect your home or small business. [Learn more about it at 2GIG.com](http://2GIG.com)

Q. How big is the GC3?

A. The GC3 has a beautiful 7" capacitive touchscreen with a smaller footprint than any other 7" touch screen panel on the market and it is 10% thinner than the GC2.

Q. Does GC3 have home automation support?

A. Yes GC3 **is the first Z-Wave Plus certified Security panel** and has Z-Wave built in and will work with lights, locks, and thermostats. You can create and run Scenes locally. GC3 also allows you to create Rooms which will let you group automation devices of different types into one screen. Create a Living Room to see in one place the lighting, thermostat or controls for that room for example.

Q. Which remote service providers will GC3 work with?

A. GC3 will launch with Alarm.com support.

Q. How do I find out more about the GC3?

A. Visit our website at 2gig.com to learn more about the GC3. You can also sign up for a training learnnortekcontrol.com
