

## Lithofin ALGEX Special Cleaner for Outdoor Areas

### Description

A special product from the LITHOFIN-Range. Lithofin ALGEX is a water-soluble cleaning concentrate based on high quality surfactants. The product is free of chlorine and acid.

### Properties

Self-actingly removes all kinds of common and environmental dirt caused by plants and trees. Slippery green deposits can also be removed.

Due to its characteristics, Lithofin ALGEX also has a preventive effect, keeping surfaces clear of new deposits for up to one year.

#### Technical Data:

Density: 1.0 g/cm<sup>3</sup>

pH-Value: approx. 8 (concentrate)

Appearance: clear, light blue

Odour: perfumed

Flash Point: n.a.

Solubility in Water: very good, complete

### Field of Use

For cleaning all outdoor areas, such as stairs, paths and terraces, walls, grave stones, roofs, wooden fences, etc. Ideally suited for preventive treatment against green, slippery deposits.

### Directions for Use

Lithofin ALGEX should be diluted with water approx. 1:10 (when used as a preventive treatment 1:20) and distributed on the surface using a watering-can or a sprayer. After application, the areas should not be rained on for at least 4 hours. The surfaces will become bright, clean and free of deposits within a few days. Surface residues can be washed off with water or they will disappear when it rains.

Please Note: Lithofin ALGEX is not harmful for plants, however, they should not be sprayed or should be washed off immediately.

Application Temperature: 10 to 25°C.

Do not use on warm surfaces.

Coverage: approx. 20 to 50m<sup>2</sup> when using a watering-can; up to 200m<sup>2</sup> when using a sprayer.

### Storage

Closed cool and dry. Up to 5 years.

### Advice

In case of stubborn dirt, if the deposits have turned black, clean the surface with Lithofin MN Outdoor Cleaner. Spray Lithofin ALGEX as a preventive treatment a few days after cleaning. Repeat this preventive treatment once a year to maintain the appearance year-round.

### Further Treatment

Impregnating the surface with Lithofin STAINSTOP >W< will render it resistant to the penetration of water, thereby greatly reducing the risk of dirt accumulation and algae formation.

### Environmental Protection

The contained surfactants are biodegradable according to regulation (EC) No. 648/2004 (detergents regulation). Disposal: waste code according to EWC/AVV 07 06 08\*. Bottles/canisters are made of environmentally friendly polyethylene and can be recycled (see information on label).

### Safety

UFI: 1S20-C0UT-000S-0TGK

Ingredients according regulation (EC) No. 648/2004 (detergents regulation): 15-30% cationic surfactants, <5% non-ionic surfactants, scent.

Labelling according to EU-Directive 1272/2008 (CLP):

GHS Symbol 05, 09, Danger  
quaternary ammonium compounds, benzyl-C 8-18-alkyldimethyl, chlorides.

Causes severe skin burns and eye damage. Very toxic to aquatic life. Toxic to aquatic life with long lasting effects.

Keep out of reach of children. Wear protective gloves/protective clothing/eye protection/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Store locked up.

ADR 2019: labelling for transport

| Unit  | Label | Notes on freight papers         |
|-------|-------|---------------------------------|
| a) b) | LQ    | none, due to limited quantities |

### Packaging

**a)** 1 litre bottle with child-proof cap (10 per box)

**b)** 5 litre canister (2 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated). This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Always test the product in an inconspicuous area. (GB 7.19gps/4.19)
