

## Lithofin KF Ceramic-Clean

### Description

A special product from the LITHOFIN-Range for ceramics, quarry tiles and porcelain (KF). Lithofin KF Ceramic-Clean is a high-yielding concentrate based on a proven and balanced combination of active acids and high quality cleaning compounds. The product works thoroughly yet mildly, does not leave any residues and has a pleasant smell.

### Properties

Lithofin KF Ceramic-Clean removes surface residues such as calcium, lime and dirt deposits, soap scum and greasy residues, rust, etc. The surfaces will gleam without polishing and the pleasant odour emphasizes the hygienic cleanliness.

#### Technical Data:

Density: 1.1 g/cm<sup>3</sup>  
 pH-Value: <1 (concentrate)  
 Appearance: clear, green  
 Odour: pleasant  
 Solubility in Water: very good

### Field of Use

For every-day maintenance cleaning in bathrooms, showers, toilets as well as kitchens. Lithofin KF Ceramic-Clean is suitable for ceramic tiles, grouting, chrome, stainless steel, glass and many types of plastics. Not suitable for polished marble and limestone.

### Directions for Use

Depending on the stubbornness of the dirt, dilute the product up to 1:15 and apply it to the surface with a brush or sponge. On small surfaces, simply put a small amount of Lithofin KF Ceramic-Clean on a wet sponge. Allow the product to work briefly, then rinse well with water. In case of very stubborn dirt deposits, use the product undiluted. Always test in an inconspicuous area prior to use.

**Please Note:** do not use on acid sensitive surfaces such as polished marble and limestone, enamel, certain decorative tiles, etc.

**Advice:** in order to protect cement based grout lines, pre-wet the surface and use the product only in diluted form.

**Coverage:** 10 to 20m<sup>2</sup> per litre on stubborn dirt, up to 100m<sup>2</sup> when used for regular cleaning.

### Storage

Keep closed and cool.  
 Shelf life of up to 5 years.

### Environmental Protection

The contained surfactants are biodegradable according to regulation (EC) No. 648/2004 (detergents regulation).

**Disposal:** waste code according to EWC/AVV 06 01 06\*. Bottles/canisters are made of environmentally friendly polyethylene and can be recycled (see information on label).

### Safety

**UFI:** MY00-ROCF-K00D-3N87

**Ingredients according regulation (EC) No. 648/2004 (detergents regulation):** acids, <5% non-ionic surfactants, auxiliary agents.

**Labelling according to EU-Directive 1272/2008(CLP):** Symbol GHS 05 Danger

Contains phosphoric acid. May be corrosive to metals. Causes severe skin burns and eye damage. Keep out of reach of children. Keep only in original container. Wear protective gloves/protective clothing/eye protection/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Continue rinsing. Store locked up.

#### ADR 2019: labelling for transport

Unit	Label	Notes on freight papers
a)	LQ	none, due to limited quantities
b)	8, UN1760	Corrosive liquid n.o.s. (phosphoric acid), 8, UN 1760, II, (E)

### Packaging

- a) 1 litre bottle with child-proof cap (10 per box)
- b) 5 litre canister (2 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated). This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Always test the product in an inconspicuous area. (GB7.19g/4.19)
