

WHICH COURSE SHOULD I TAKE?

THE BROW BUNDLE (MICROBLADING & MICRO-PIGMENTATION) \$3990

 4-5 DAYS ONLINE  3 DAYS HANDS-ON  5 MODELS  DIGITAL & MANUAL DEVICES  STARTER KIT

This one is for the Brows Enthusiast. This course focuses on everything you need to start offering permanent makeup for your clients' eyebrows. It brings together the perfect pairing of skills for digital micro-pigmentation and manual microblading methods, and teaches you how to do both. Learn hairstrokes, powder, microshading, pixel and stroke and other core techniques across both devices so that you're never limited in what services you can offer within your business.

In addition to the different tattooing techniques and essentials you'll be introduced to as a permanent makeup artist, you will also get access to full-length video demonstrations, worksheets and practice pad tutorials, learn device management and needle configurations, client pain management, consultations, postcare, cross-contamination prevention, pigment choices, color theory, eyebrow mapping and shaping alongside practical hands-on experience with models in our academy.

*This course can be tailored to one method if you prefer to only learn one device for eyebrows (microblading or micro-pigmentation).

ALL-INCLUSIVE MICRO-PIGMENTATION \$3990

 4-5 DAYS ONLINE  3 DAYS HANDS-ON  5 MODELS  DIGITAL DEVICE  STARTER KIT

This is for the artist who wants to learn it all. Recognized globally as the leading permanent makeup academy in Canada and as a staple course in the industry, our fundamental micro-pigmentation training covers everything an artist needs to learn about eyebrows, upper and lower eyeliner and lip contour/blush procedures.

We take you from student to business owner. Our senior team of master instructors not only help build your skillset and techniques in each area, but also your confidence to manage clients and their consultations, pain management, postcare, cross-contamination prevention, and more. Every student gets to experience these protocols and workflows up close and personal with hands-on client procedures and appointments. Models are booked in for each type of procedure so you gain real practice and experience, always with our instructors nearby to support you, strengthen your skills and techniques, to give tips and tricks and to encourage you with every new stroke of confidence.

Throughout your training, you will also get access to full-length video demonstrations, worksheets and practice pad tutorials while also learning about device types, how to use your machine, needle configurations, pigment choices and color theory. Our academy has been doing this successfully for 30 years for a reason - we care deeply about quality education in our industry.

*This course can also be tailored to focus on any specific combination of the 3 procedure types (ie only lips, or only eyebrows & eyeliner, etc.).

ALL-INCLUSIVE MICROBLADING \$3390

 3-4 DAYS ONLINE  2 DAYS HANDS-ON  3-4 MODELS  MANUAL DEVICE  STARTER KIT

Master the manual stroke method of microblading - one of the most popular and profitable permanent makeup trends in the beauty industry. This All-Inclusive Microblading training focuses specifically on the many microblading techniques using a manual tool for eyebrows. Learn hairstrokes, microshading, pixel and stroke and other core techniques needed to start out as a great microblading artist. This course is also an excellent add-on option for a digital micro-pigmentation artist looking to expand their services into microblading.

In addition to the different microblading techniques and essentials you'll be introduced to, you will also learn device management and needle configurations, client pain management, consultations, postcare, cross-contamination prevention, pigment choices, color theory, eyebrow mapping and shaping alongside two full days of practical hands-on experience with models in our academy.
