

# Use Comed for a fit dog from head to tail!

**NEW** in the COMED range

We want only the best for your friend.

# Callac

## Proper bone formation

To be used for proper bone development. It is a supplement containing calcium and phosphorus, enriched with vitamins and trace elements.

A shortage of calcium and minerals can lead to developmental problems of the teeth and skeleton. Callac pays attention to this by providing the right ratio of calcium/phosphorus, minerals and trace elements.

To be used in cases of increased calcium demand e.g. during growth or to maintain strong bones in elderly dogs.

### Use:

One gram per kg of body weight.  
Mix daily with food or dissolve in drinking water.  
(1 teaspoon = 5 g).

# OsCom

## Mobility - Smooth joints

Is a nutritional supplement for maintaining flexible joints. Smooth movement is very important for your dog when playing and walking.

OsCom caps can be used to support flexible joints and a smooth locomotion system.

### Use:

- Small dogs from 3 kg  $\frac{1}{2}$  caps / day.  
(open caps and sprinkle  $\frac{1}{2}$  over food).
- 10 - 15 kg: 1 caps per day.
- One capsule per day for every 15 kg of body weight.

# ComDog

## Fur - Digestion

To support digestion.

A healthy digestive system is a prerequisite for a healthy body.

Ensures optimum development.

By improving the absorption of the nutrients, ComDog stimulates the formation of a shiny fur.

### **Use:**

1 ml per 4 kg body weight in the feed.

# Clean shampoo

## For a clean, scent-free fur

Is a gentle, probiotic, nurturing dog shampoo. It gently removes dirt and odours and provides a silky shine.

The four-legged friend's fur is essential for their general health. If the coat is dirty or uncared for, it can lead to skin problems, allergies or odour problems. Clean Shampoo actively removes dirt and allergens. Therefore, your dog feels better in his/her skin and does not spread a foul smell.

Contributes to the preservation of the environment.

100 % safe for dog and owner.

### Use

Shake before use. Wet the coat with lukewarm water and apply the shampoo. Massage well for a few minutes. Rinse with lukewarm water.

# Clean dry shampoo

## Instant fresh

With Clean Dry Shampoo, you can clean your dog's fur. Perfect to quickly freshen up your dog in-between. If your dog urgently needs a bath, but you want to avoid the effort, Clean Dry Shampoo is just what you need. Clean Dry Shampoo contains probiotic germs that quickly cleanse the coat and provide a fresh scent. Allow the shampoo to work briefly, and then brush it out thoroughly.

Your sweetheart smells fresh again, and his fur shines.

- Provides soft, shiny, healthy fur
- Perfect for in-between washes
- No water is required.
- For all types of fur.
