

RING SIZING GUIDE

1. Print this sheet on an 8.5 x 11 (letter size) paper, making sure “page scaling” is set to “none.” To be sure the Ring Sizing Guide has been printed correctly, take a ruler and measure the line below to be sure it’s exactly 2”.

2. Find an existing ring that fits well and align the inner edge of the ring with the circle below that it matches best. This is your ring size. If the ring is between two sizes, we recommend choosing the larger size.

Engagement rings are usually worn on the left hand, so if possible, measure a ring worn on that hand. Likewise, if you’re measuring for a ring to be worn on the right hand, try to measure an existing ring that fits the right hand.
