Protection*

*Dual  
Chilling  
Core  
Options*

## BUY ONCE PROTECT FOREVER

Protect your expensive pumps with this multi-functional, durable stainless cold trap.

### **Longest Vapor Path**

- Industry leading vapor path design
- Longer vapor path rapidly chills vapors to condense into liquid.

### **Vacuum Jacketed Insulation**

- Insulated stainless steel vacuum jacket creates better temperature transfer
- No case frosting

### **Multi-function**

- Place in front of any vacuum pump to prolong and protect equipment
- Works with vacuum oven
- Adapatable for alcohol recovery

### **Durable Protection**

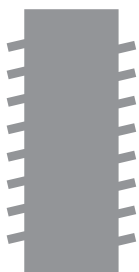

- 2000mL storage before overflow
- 6" Ferrule bottom for expansion
- Stainless steel construction

### **Dual Chilling Core Options**
