

GENERAL DESCRIPTION

The McBride MC12 baffle is designed for Public Address Systems to provide a sturdy speaker mount, speaker protection, and an attractive finished appearance.

The MC12 is of one piece construction and uses heavy gauge steel for extra rigidity and resistance to warping. The MC12 utilizes standard screw mounting for use with our MC40E back box. The MC12 baffle is available as a pre-assembled unit with various combinations of our quality 4 or 5 inch speakers and line matching transformers.

All McBride baffles are finished in satin white with a tough baked enamel for resistance to chipping and corrosion.

ARCHITECTURAL SPECIFICATIONS

MODEL MC12

The Flush Ceiling Baffle Shall be a McBride Model MC12. The baffle shall be constructed of heavy gauge steel, finished in satin white baked enamel and shall measure 8-5/8 inches in diameter and 3/16 inches deep. The 4 or 5 inch McBride loudspeaker shall mount on concealed studs. Four holes shall be provided to mount the baffle to a McBride model MC40E back box.
