

**GENERAL DESCRIPTION**

The McBride MC15 economy baffle is designed for Public Address Systems to provide a sturdy speaker mount, speaker protection, and an attractive finished appearance.

Using only two concealed studs to mount the speaker and two screws to mount the baffle to the back box the MC15 is the more economical choice with only a slight decrease in design integrity.

The MC15 is of one piece construction and uses heavy gauge steel for extra rigidity and resistance to warping. The MC15 utilizes standard screw mounting for use with our MC15E round back box and is available as a pre-assembled unit with various combinations of our quality 4 or 5 inch speakers and line matching transformers.

All McBride baffles are finished in satin white with a tough baked enamel for resistance to chipping and corrosion.

**ARCHITECTURAL SPECIFICATIONS**

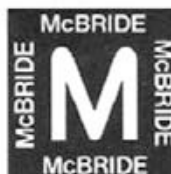

**MODEL MC15**

*The Flush Ceiling Baffle Shall be a McBride Model MC15. The baffle shall be constructed of heavy gauge steel, finished in satin white baked enamel and shall measure 7-3/8 inches in diameter and 3/16 inches deep. The 4 or 5 inch McBride loudspeaker shall mount on two concealed studs. Two holes shall be provided to mount the baffle to a McBride model MC15E back box.*
