

COMMERCIAL METALWORK SERIES

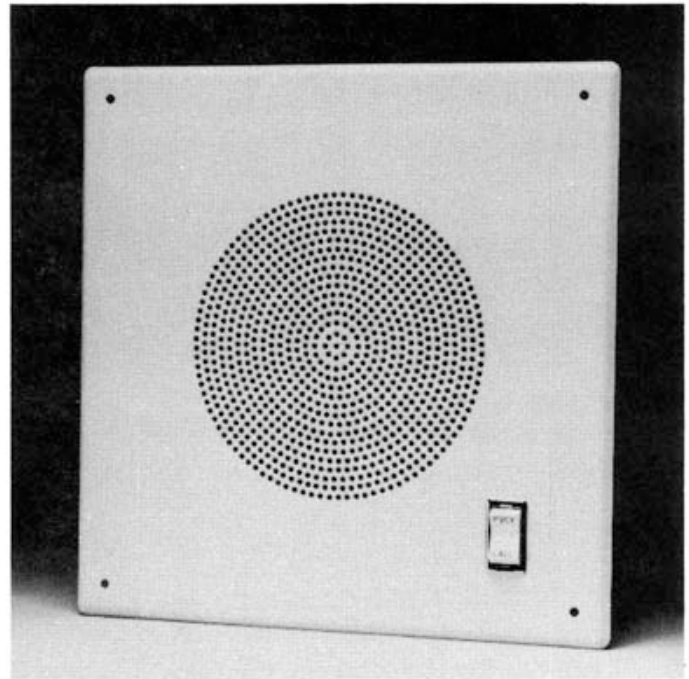

BAFFLE: MC25SQ CALL SWITCH: MCSW-1

GENERAL DESCRIPTION

The McBride MC25SQ baffle is designed for Talk Back Paging Systems to provide a sturdy speaker mount, speaker protection and an attractive finished appearance.

The MC25SQ is of one piece construction and uses a heavy gauge steel for extra rigidity and resistance to warping. A special cut out is provided to mount our MCSW-1 privacy-call rocker switch. This switch features DPDT centre off construction, screw terminals and a PVCY/CALL engraved rocker. The MC25SQ utilizes standard screw mounting for use with our standard MC20E back box and is available as pre-assembled units with various combinations of our quality 8 inch speakers and line matching transformers (6 assemblies per carton).

All McBride baffles are finished in satin white with a tough baked enamel for resistance to chipping and corrosion.

ARCHITECTURAL SPECIFICATIONS

MODEL MC25SQ

The Flush Ceiling Baffle Shall be a McBride Model MC25SQ. The baffle shall be constructed of heavy gauge steel, finished in satin white baked enamel and shall measure 12-1/2 inches square and 3/16 inches deep. The 8 inch McBride loudspeaker shall mount on concealed studs. A special cut out shall be provided to mount the McBride model MCSW-1 privacy/call switch. Four holes shall be provided to mount the baffle to a McBride model MC20E back box.

MODEL MCSW-1

The Privacy/Call Switch Shall be a McBride Model MCSW-1. The switch shall be of DPDT centre off rocker type construction with six screw terminals. The rocker shall be white and have PVCY/CALL engraved on its face in black. The rocker shall be surrounded by a chrome trim plate. The Privacy position shall be push on/push off and the Call position shall be momentary on. The MCSW-1 switch shall have provisions for a snap in fit into the McBride MC25SQ baffle.
