

GENERAL DESCRIPTION

The McBride MC40E back box is designed for Public Address Systems to provide a sturdy baffle mount, speaker protection and back wave cancellation.

Constructed of heavy gauge galvanized steel for extra rigidity and resistance to corrosion, the MC40E utilizes standard screw mounting for use with our MC12 (round) and MC70 (square) flush ceiling baffles.

The McBride MC40E back box features four mounting slots for perfect alignment, two combination 1/2 - 3/4 inch knockouts and a special inside coating for sound dampening and to eliminate mechanical resonance.

ARCHITECTURAL SPECIFICATIONS

MODEL MC40E

The Ceiling Back Box Shall be a McBride Model MC40E. The back box shall be constructed of heavy gauge galvanized steel and shall measure 5-9/16 inches square and 4-11/16 inches deep. The baffle mounting holes shall be spaced on 4-13/16 inch centres. The MC12 (round) and MC70 (square) McBride flush ceiling baffles shall mount to the MC40E with screws to the provided speed nuts. Four mounting slots shall be provided to mount the MC40E. The inside of the back box shall be coated with a special material for sound dampening and to eliminate mechanical resonance.
