

**HC-1**  
Height.....15"  
Width .....15"  
Depth.....15"  
Color.....Black

Designed to protect paging horns (**HC-1**) and surface mounted paging speakers (**SMC-1**) or other fixtures from damage due to impacts or vandalism. Ideal for schools, gymnasiums, arenas, heavy industrial areas or anywhere abuse must be anticipated.

Both cages are constructed from 1/8" diameter welded steel wire screen with 7/8" openings and 3/16" steel rod reinforcing hoops. All joints are fully welded for strength and durability.

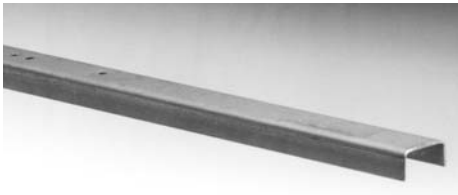

**SMC-1**  
Height.....15"  
Width .....15"  
Depth.....5"  
Color.....White

Both cages are finished in a tough chip and rust resistant baked powdered epoxy.

Suitable for outdoor use.
