***Our History is Still Being Written,*
just published by Pathfinder Press.**

The book is the latest in Pathfinder's series of dozens of books on the Cuban revolution.

Authored by Armando Choy, Gustavo Chui and Moisés Sío Wong -- three generals in Cuba's armed forces of Chinese-Cuban origin -- it tells the story of the Chinese in Cuba, from the mass immigration of Chinese indentured labourers in the 19th century and their involvement in the independence struggle against Spain, to the discrimination they faced in pre-revolutionary Cuba; and the story of the three themselves, including in the revolutionary war, in Angola, right up to the present day. Their current responsibilities include urban agriculture (including with Venezuela), state reserves and the clean-up of Havana Bay.

Our History is Still Being Written is a must for anyone interested in the Cuba's history, national identity, ethnicity and politics; and for any library used by students of Cuban revolution.
