**Lenin's version of Soviet Communism was much different from that of what Stalin turned it into. "Lenin's Final Fight: Speeches & Writings 1922-23" looks into the waning days of the political life of Vladimir Lenin as he was fighting for his vision for Russia that he won toppling the Tsars in 1917. Told with his own documents and writings, "Lenin's Final Fight" is a fascinating read for anyone who is intrigued in studying this major power in history.**
