

MEET THE NEWEST STAR IN THE SUNGUARD™ FAMILY

SUNGUARD ONE™

UVR POLYESTER MONOCORD

Sunguard One™ is a polyester monocord thread that is bleach and UV resistant, making it ideal for use in marine and outdoor applications. Sunguard One™ is a strong thread with a durable bonded construction which prevents the ply from untwisting during zigzag sewing operations. This also makes it a popular choice for use as the under thread in embroidery and quilting markets.

Features:

- Bleach and UV resistant
- Single cord, not twisted
- Perfect for multi-directional sewing

Applications:

- Marine
- Low denier light sails
- Light boat tops
- H4 automatic bobbin changers
- Sports equipment
- Filtration
- Multi-head embroidery
- Quilting
