Switching Delivery Pump

### A Variety of Flow Patterns!

1-in 5-out or free port selection by programming

Accurate Flow Volume!

Perfect distribution

Dispensing
1 solvent into 5 bottles
by only one pump!

Setup flow rate : 5 mL/min
Setup flow volume : 300 μL

1

Consistent liquid volume

Look at the exact same
volume in each bottle!

Setup flow rate : 25 mL/min
Setup flow volume : 60 μL x 5 times

2

A wide flow rate range

You can control even
a subtle amount of liquid!

Setup flow rate : 2.5 mL/min
Setup flow volume : Equal to a droplet
