### QUILT BLOCK PLACEMENT:

Using a design wall or a large space on your floor, layout all of quilt blocks as shown in the diagram below. Pay special attention to the direction and placement of the Eccentric Star Blocks as there are two variations of this block.

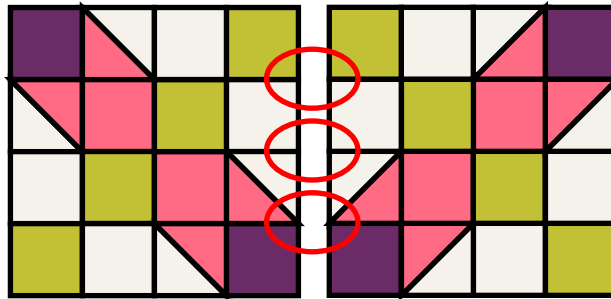

## GENERAL CONSTRUCTION INFORMATION:

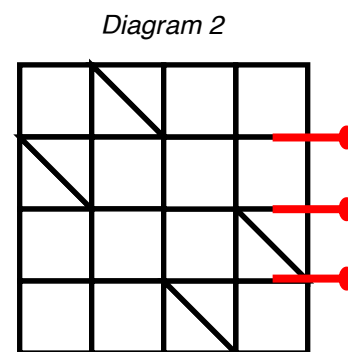

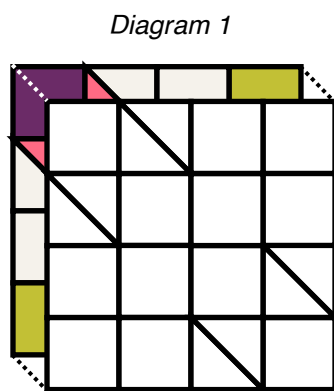

The quilt blocks will be sewn in sections. This will allow you to more accurately line-up seams and stay organized with block placement.

When you begin sewing your blocks, place a pin at each matching seam. This will allow you to connect the seams in one neat line.

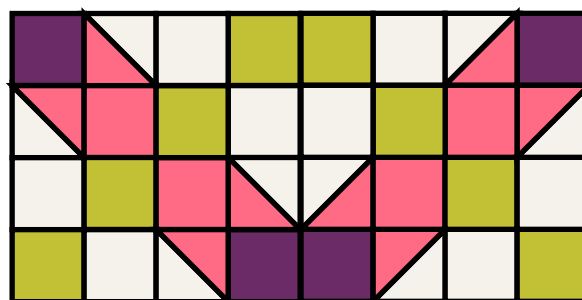

Begin by identifying matching seams.

Place blocks on top of each other with Right Sides facing (*Diagram 1*). Then pin along aligned seams (*Diagram 2*).

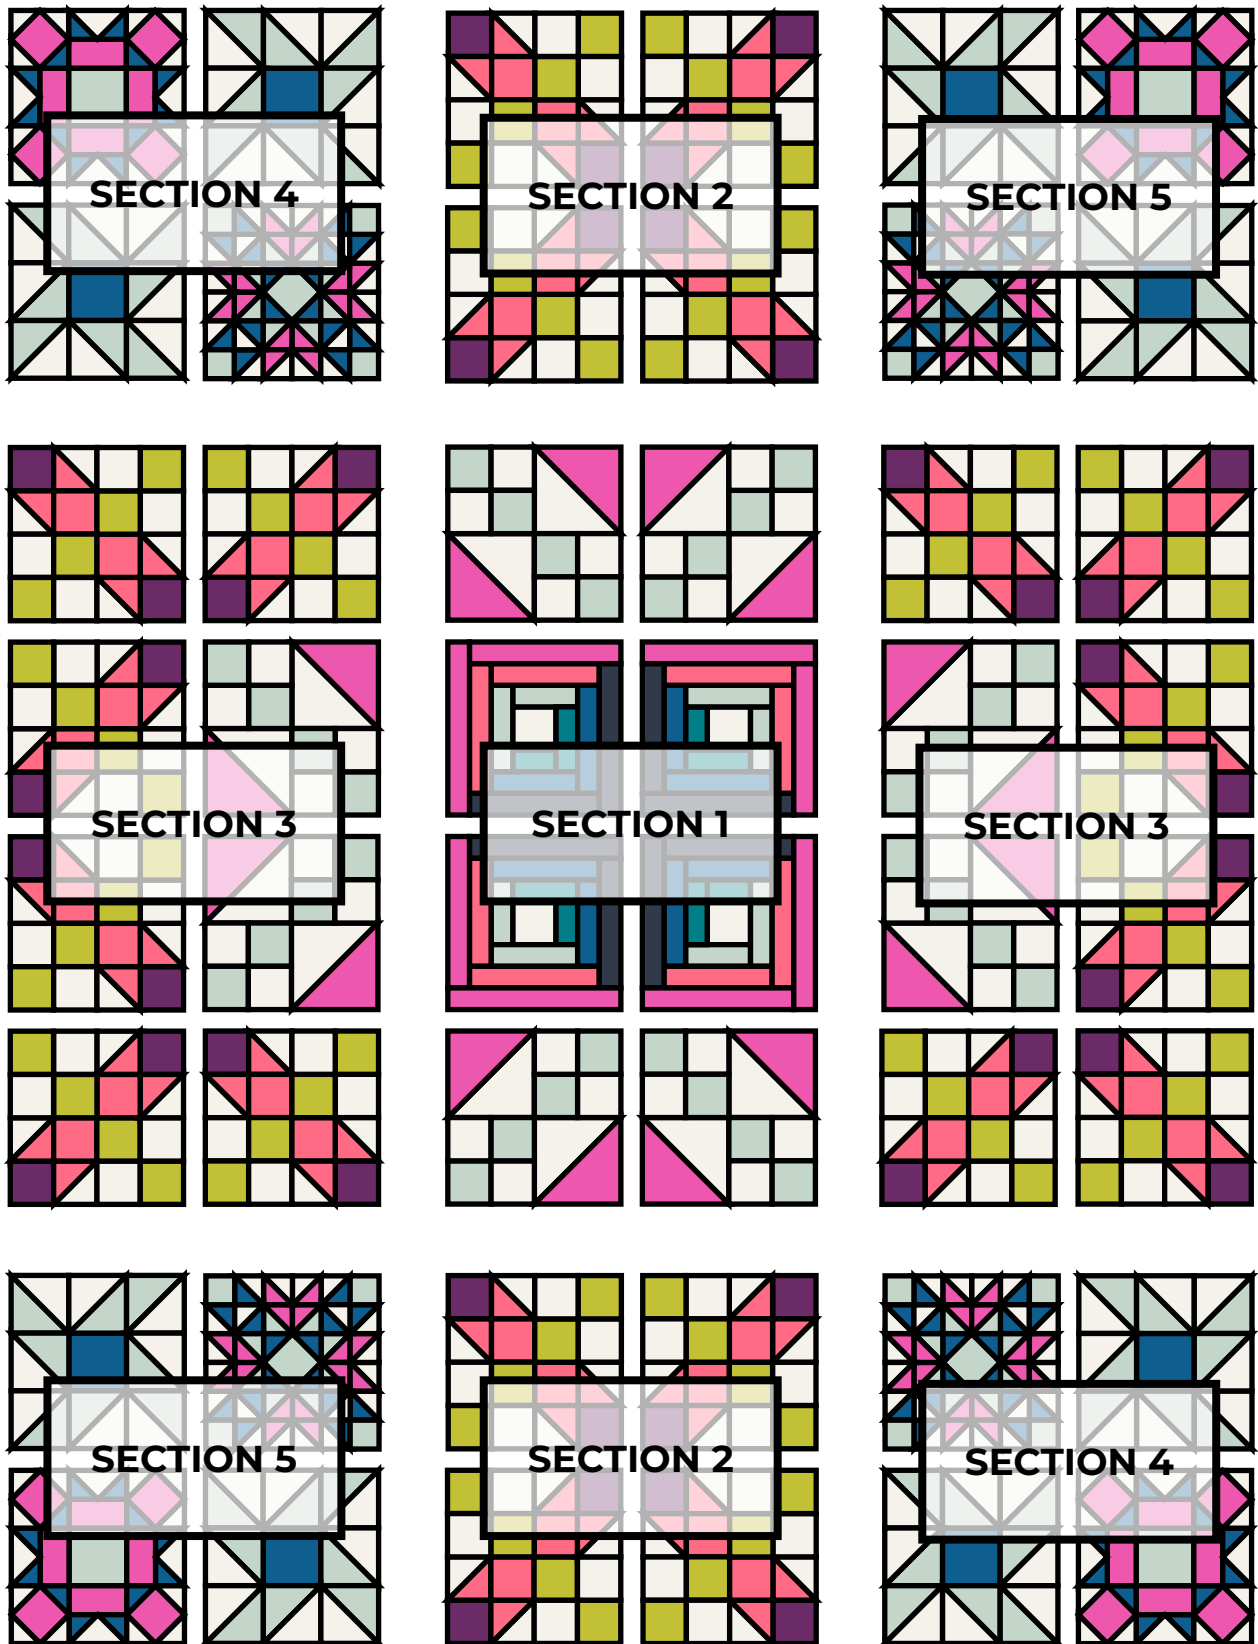

When the two blocks are sewn, the seams should line up. Use this method for all your blocks.

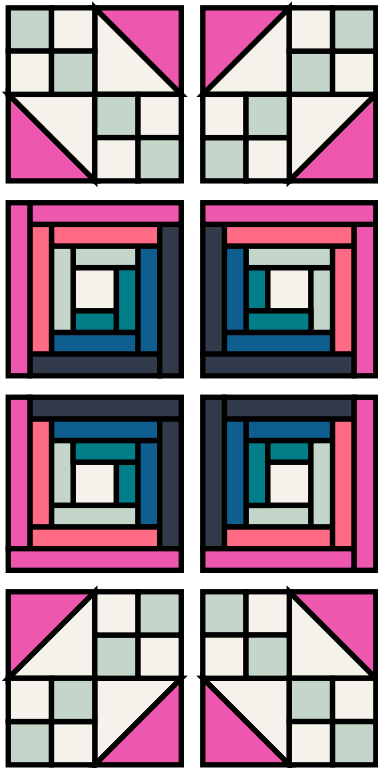

## QUILT TOP SECTION GUIDE:

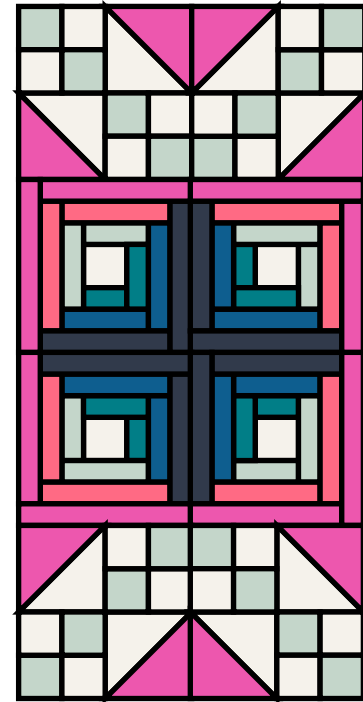

The diagram below shows the quilt top sections and order of sewing. All seams are pressed open.
