

...to help you find your way through life's challenges.
**Thank you for your purchase...
and welcome to eForcePlus®!**

*Negative people, challenging circumstances, and life itself
can have an effect on us...whether we like it or not!*

*As such, we must strive to stay calm and centered...to be
the "eye in the center of the storm".*

*The eForcePlus® Sacred Geometry Pendant and Bracelet
product line was created to prompt you to stay grounded
and to turn your attention to your calm center within.*

*Customers report a different experience from each
unique design...so try a variety of them, or program each
one with a different intention, and wear what fits your
mood at the time!*

Enjoy...

ANCHORING YOUR INTENTION WITH YOUR EFORCEPLUS® PENDANT

1. Before you place your pendant on you may want to find a quiet place where you can quiet the mind and tune into your feeling place within.

2. In that place of quiet think about what you would like more of in your life. What would you like to intend for yourself?

3. Once you have your intention in mind, close your eyes and place

your pendant on while allowing it to merge with your intention.

Depending on your state of relaxation, you may or may not notice

anything, but if you notice subtle (and sometimes not so subtle)

changes which may include a deepening of the breath or a feeling of

inner expansion, simply allow this to happen as you anchor your

attention to and remind you of your primary intention. You needn't

think about this consciously...just allow it to happen.

4. As you go throughout your day, allow your pendant to reorient your

intention to your pendant.

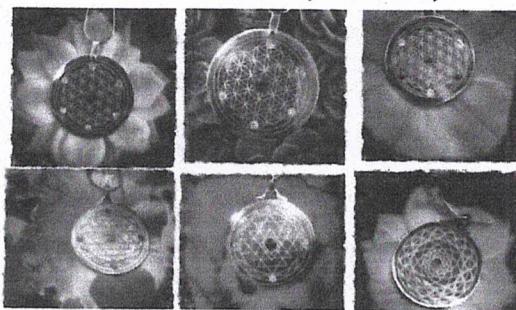

5. Focus on one primary intention per pendant at a time. If you have

more than one pendant you can program a specific intention for each

piece.

Your pendant is best worn outside of clothing rather than against the

skin. Care instructions are included with each pendant.

Instructions and care of your eForcePlus® Pendant

1. **Wear your pendant or bracelet** – We suggest you **wear your Eforceplus pendant outside of your clothing**. This will help prevent oils from your skin accumulating on the pendant and help to maintain it's beauty and luster.

2. **How does it work?** – The eForcePlus pendant is made with special metals etched with specific designs chosen for their inherent harmony and sacred geometric patterns. What may appear to be stones embedded within the pendants and bracelets are in fact a special blend of enhanced rare earth minerals. These minerals are found in the in earth's natural environments and "sacred pools" throughout the world. One such place is Lourdes of Southern France where millions partake in these magical mineral rich waters. Allow yourself to "tune-in" when first putting on your pendant or bracelet.

According to poet, playwright, author Benjamin Dean, "Anything with an inherent harmony can act like a tuning fork to re-tune ourselves to return to the original organic natural patterns that belong to our bodies". As a beautiful piece of art, touching music, or anything else exhibiting integrity in terms of its patterns can uplift our spirit, so can the EforcePlus pendant with its inherent beauty, harmonic patterns, and special enhanced mineral stones.

3. **Other uses - Meditation and yoga:** Many people wear their pendant or bracelet while meditating or practicing yoga. **Feng Shui your home:** Some users like to place a pendant at each of the four corners of their bed or room to create a "Feng Shui" effect. Customers report a different experience from each unique design...so try a variety of them and wear what fits your mood at the time.

4. **CLEAN WITH DRY CLOTH ONLY. DO NOT** use ammonia based products or cleaning solutions. **Take pendant off when showering** and **do not expose pendants containing clear crystals to excessive sweat, perfumes, oils, etc.** Overheating of pendant may cause glue under crystals to soften (replacement crystals are free of charge in the event of one falling out). If going to bed with pendant on, consider placing it in a small pouch under your pillow to avoid breaking chain during sleep. Please note the *chains that accompany the pendants are fee "give away" chains made of steel (not titanium)*. You may choose to replace them with a chain made of materials more suitable to your taste. No need to "cleanse" your product.

5. **Gold over titanium pendants** - To best care for your gold over titanium pendant, avoid prolonged contact with oil from skin (pendant is **best worn outside of clothing**), do not expose to perfumes, cleaning solutions, or conditions such as bathing, sweating, etc. Depending on circumstances, slight fading of gold may occur over time and is to be expected particularly when handled by persons with highly acidic skin. Solid gold pendants with genuine diamonds are available (starting at a few thousand dollars each) and are guaranteed to never fade.

Distributorship and wholesale opportunity

People will ask about your eForcePlus pendant wherever you go so why not earn extra money in your spare time? If you would like to purchase eForcePlus® products wholesale or care to develop your own distributorship, the opportunity is available to you. Contact **for details.**
