

- Hand wash and machine wash using Polyclean by Polysafe.
- For heavy soiled glasses, use Revive, the polycarbonate soaker exclusive for Polysafe products.
- When hand washing, only use a soft sponge and avoid repetitive movements like twisting whilst cleaning.
- Avoid scourers and abrasive cleaning clothes at all costs. These will make the polycarbonate glasses appear scratched and cloudy.
- Glass brush cleaners are also damaging to polycarbonate surfaces. It is recommended that folding a cleaning cloth over the bristles will create a protective barrier.
