

FOX KID

Helping ALL KIDS to become reading superheroes!

- Decodable chapter books
- Practice workbooks
- Word card games

Fast-paced, funny, **FOX-TASTIC** decodable chapter books!

Fox Kid is a new series of decodable chapter books and supporting practice resources specifically designed for struggling readers who've 'missed the boat' in the early years of school.

Written and illustrated by Australian children's author, **Adrian Beck**

"I wanted to write a series that ALL kids could enjoy, no matter what they are like with their reading!"

An evidence-based approach to reading

Without explicit phonics instruction, 60% of children are vulnerable to falling behind in reading.

Decodable books allow all children to master the application of phonic knowledge to read words, build fluency and confidence.

Tried and tested teaching sequence

Developed by decodable book experts Little Learners Love Literacy®, following their explicit and cumulative phonics teaching sequence.

Packed with extras to support students and teachers

Teacher notes provide background information, guidance, vocabulary checks and comprehension questions for each chapter. Student activities include retelling, decodable quizzes and much more.

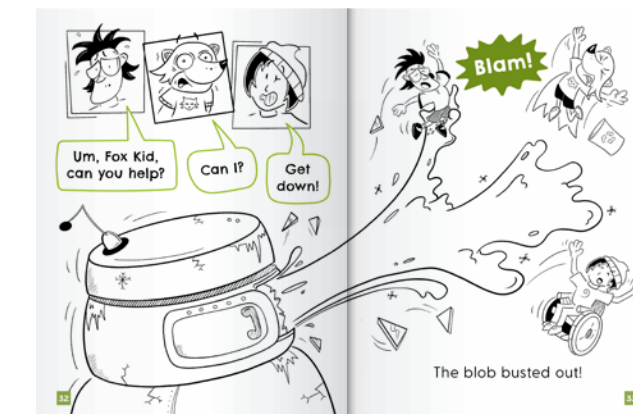

Raise reading engagement and motivation

Hilarious age-appropriate decodable stories that look comparable to children's chapter books available in bookstores and libraries. These are decodable chapter books struggling readers will **LOVE** to read with words they **CAN** read!

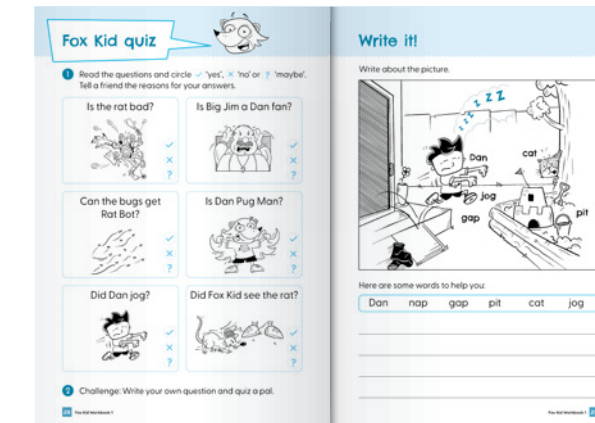

BOOK 1 Fox Kid and the Rat Bot

BOOK 3 Fox Kid and the Endless Frost

Fox Kid Workbooks

The workbooks contain evidence-based targeted activities aligned to the Little Learners Love Literacy® teaching sequence and **Fox Kid** chapter books. Activities are purposeful – building both reading and writing skills. They are written by intervention specialist Tomi Liddle.

- Phonemic awareness
- Comprehension
- Decoding
- Vocabulary
- Fluency
- Spelling
- Writing

Fox Kid Word Game **KA-BLAM!**

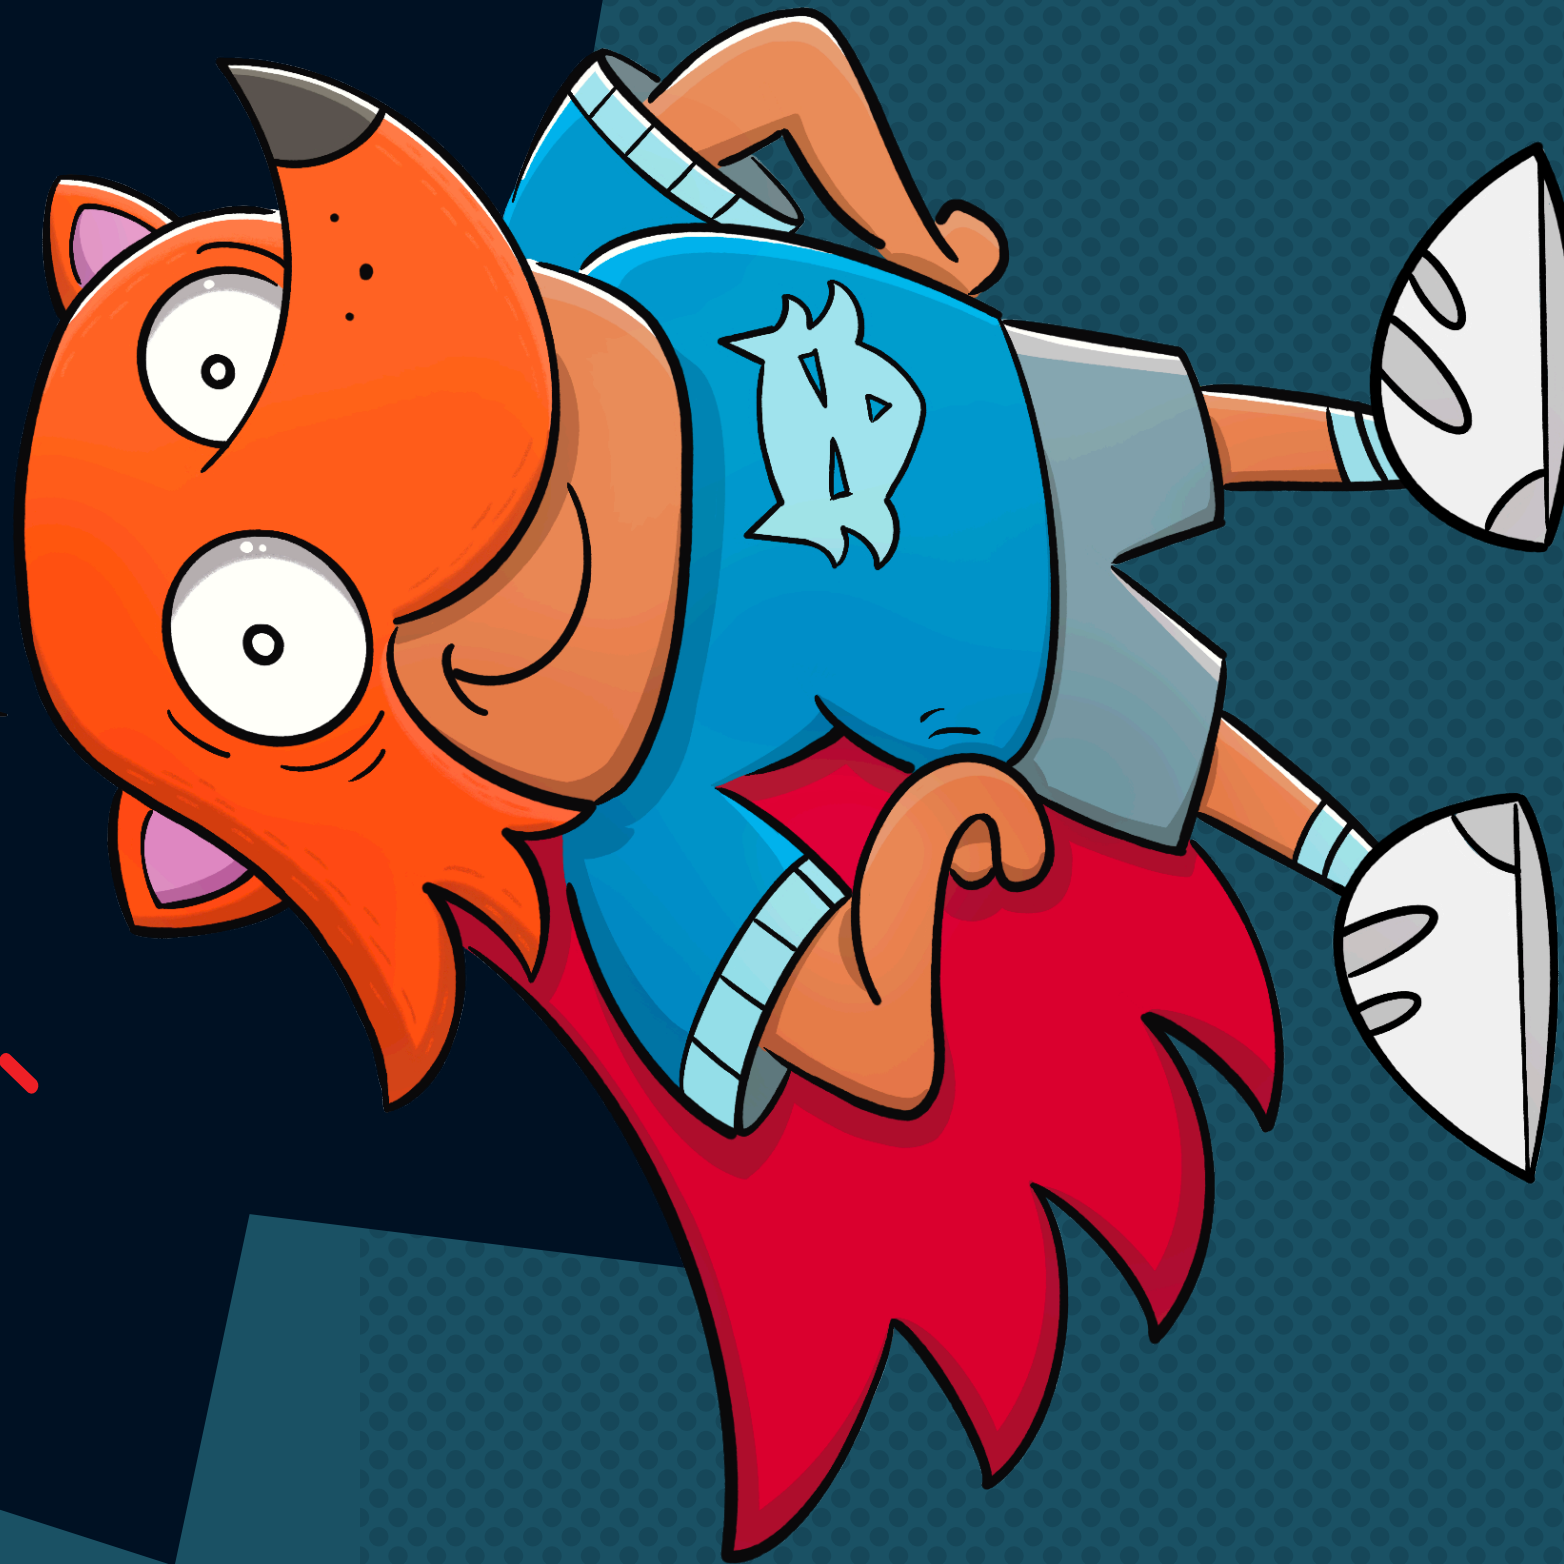

The **Fox Kid** series includes an exciting card game **KA-BLAM!** With three fun ways to play, the aim is to practise decoding and build foundational single-word reading fluency.

Watch out for the exploding card ... **KA-BLAM!** Game over!
