Are you a quiz wiz?

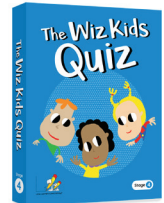

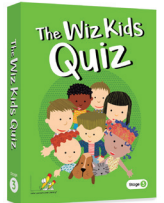

The **Wiz Kids Quiz** gives children practice reading short decodable questions several times to build sentence-level fluency.

The questions are fun and quirky and provide a springboard for interesting discussions to develop oral language skills and vocabulary.

Children answer 'yes', 'no' or 'maybe', and have to justify their answer using evidence from the illustrations - no matter how silly the question is!

Includes digital notes with instructions for whole class and partner play.
