MODERN MATTER

CELEBRATING EVERYDAY LUXURY

2022

OUR STORY

Can you make these earrings into hardware?

This was the question that first prompted us to grow our jewelry atelier into the premium home fashion brand it is today. We collaborate with innovative designers to create custom luxury hardware. We apply the same artisanal approach and jeweler's eye for detail that have served us since our beginnings.

We believe that small details can completely change an interior. Whether inspired by art, architecture, or the natural landscape, we seek out design solutions that are a marriage of sophistication and functionality.

A blend of classic lines and elegant materials, our collections can lend a delicate glamor to any room.

Hand-crafted from brass and accented with semi-precious and natural gemstones, our bold and decorative products are redefining hardware.
