

# CARE INSTRUCTIONS

---

## CLEANING YOUR HARDWARE

Modern Matter products are designed for indoor use only unless otherwise stated. Hardware can be cleaned with a soft, non-abrasive cloth dampened with clean water with or without the addition of a mild dishwashing liquid. Wipe dry with a soft, non-abrasive cloth.

### **Caring for Different Materials**

**Solid Brass:** Clean with slightly damp soft cloth and mild soap. Once it is cleaned, wipe with a clean damp cloth and dry thoroughly. Please use non-abrasive lint-free or microfiber cloth that will not scratch the surface.

**Lucite:** Clean with slightly damp cloth and mild soapy water.

**Leather:** Clean leather with a soft brush or cloth. It is best to use a damp cloth or cleaning products specifically designed for leather as opposed to household cleaners.

### **Product Variation**

Due to the nature of our hand finishing process, some products such as those with a hand-applied patina will have lot-to-lot variations as to color and/or finish.

## WARRANTY

We extend a one year warranty for our decorative cabinet hardware. The warranty is limited to repair or replacement of the hardware itself, and does not extend to ancillary charges such as site work or carpenter/handyman fees. This warranty applies only to the original consumer purchaser and is non-transferable.
