

Water Specialist CWS Low Profile Cabinet

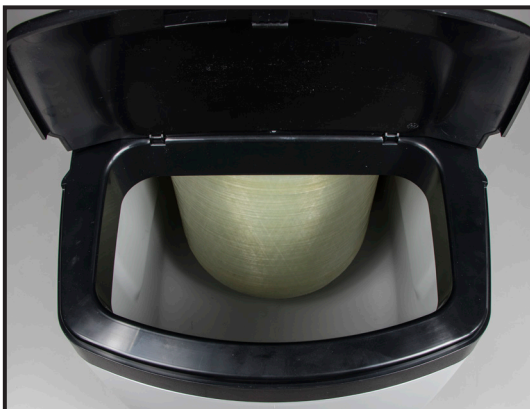

Clack has developed a new water softener cabinet with a sleek low profile design.

Its easy lift off lid opens to a large chute for adding salt to the system. Salt capacity is from 208 lbs. to 285 lbs. depending on mineral tank used. The CWS Low Profile uses mineral tanks up to 10" in diameter.

The cabinet is available for use with 18" and 35" tall mineral tanks.

The integrated easy to service brine valve system has been incorporated in the design. This allows full access to the brine valve system for servicing, without having to disassemble the complete system.

Standard cabinet base color is light gray with either the option of black or dark gray low profile covers.

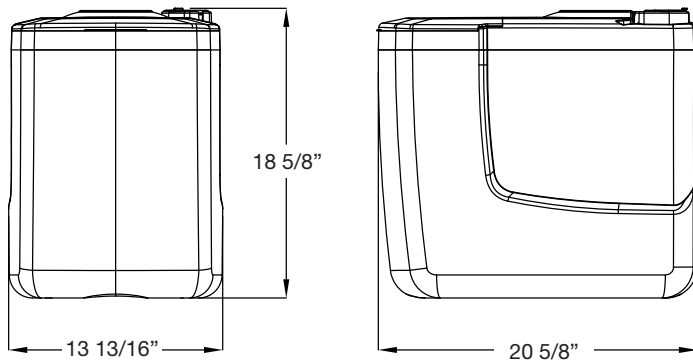

Chute for adding salt

Brine valve and brine well system

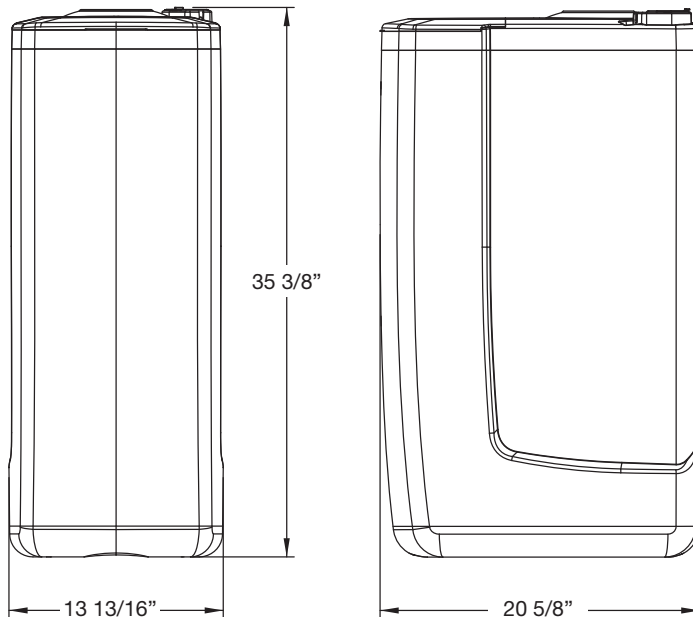

Water Specialist - CWS Low Profile 18" Cabinet

The Water Specialist - CWS Low Profile 18" Cabinet accepts 18" tall mineral tanks.

Tank Size	Liquid Capacity		Salt Capacity	
	in.	gal.	liters	lbs.
8 x 18	3.7	14	142	64
9 x 18	3.5	13	133	60
10 x 18	3.3	12	124	56

Water Specialist - CWS Low Profile 35" Cabinet

The Water Specialist – CWS Low Profile 35" Cabinet accepts 35" tall mineral tanks up to a 10" diameter to maximize system capability.

Tank Size	Liquid Capacity		Salt Capacity	
	in.	gal.	liters	lbs.
8 x 35	7.5	28	285	129
9 x 35	7.0	27	279	126
10 x 35	6.5	25	258	117

**A 10x35 mineral tank is the largest mineral tank that will fit inside this cabinet.
Control Valve and Mineral Tank not included.**

ORDERING INFORMATION

The cabinet requires two part numbers when ordering, one part number for the cabinet base assembly with the brine system and one part number for the top low profile covers.
