3. Operation

Plug the alarm into a power point and turn the alarm on.

Power supply should be through an isolating transformer or RCD having a rated residual operating current not exceeding 30mA

4. Installation

The nXt Alarm is has an I.P.54 rating.

Consider additional protection against adverse weather where appropriate.

Using suitably rated cable, the float can be extended up to a total of 50m length.

The power flex and float cable should never be encased in metal piping / conduit.

The 10m float cable is supplied with a counterweight.

In situations where the float switch cable is not secured to a fixed object i.e. the float is lowered freely into the tank, a counterweight is necessary to ensure correct operation by providing a pivot point for the float.

Exercise care in positioning the float to ensure it cannot become snagged or otherwise rendered inoperable.

5. Misc

The nXt Alarm is an alarm module ONLY.

It does not and cannot operate a pump.

There is no ability to connect to any network or to trigger external devices including remote alarm units.

The nXt-Alarm meets the requirements of AS/NZS 1546 - On-site domestic wastewater treatment units.
