

## Model GCW1KS Rev C from Powerblanket®

Consists of:

Two heating blankets Two insulated pads

Heating blankets:

	GCW1KSL	GCW1KSR
Volts, AC, 60 Hz	120	120

Cold performance, up to 100 +/-10F		
Watts, +/-10%	1440	1440
Amps, rms	12.0	12.0
Resistance, Ohms	10.0	10.0
Res. Range, Ohms	9.5-10.5	9.5-10.5

Low power performance, based on fill state of tank				
Watts, +/-10%	720	720		
Amps, rms	6.0	6.0		
Resistance, Ohms	20.0	20.0		
Res. Range, Ohms	19.0-21.1	19.0-21.1		

Hot performance, over 100 +/-10F		
Watts	0	0
Amps, rms	0	0
Resistance, Ohms	~infinite	~infinite

## Safety features of both blankets:

ETL listed product

Internal switching thermostats, bimetal, creep type, Qty. 2 in each blanket

Thermal spreading and electrically conducting ground plane

Recommend each heating blanket is controlled with a GFCI circuit
