

# WINDTUNNEL™ TANGLE GUARD™ UPRIGHT VACUUM

## QUICK START GUIDE

### GETTING STARTED

Fully assemble product prior to use.

1

Insert the handle into the wand. You will hear a click when inserted properly.

2

Insert the wand firmly into the unit.

3

Insert the lower end of the hose into the hose port. Then insert the upper end into the handle port.

### USING YOUR PRODUCT

1

Plug in, then push the Power Button on the shoulder to power ON/OFF.

2

Press "+" to activate Max Suction Power.

3

For above floor cleaning, release handle for up close cleaning.

4

For above floor cleaning, release wand for hard-to-reach cleaning.

## CLEANING THE FILTER

1

Remove the dirt cup, then remove the filter from the dirt cup lid using the tab.

2

Rinse the filter with water until the water runs through clear.

3

**IMPORTANT:** Allow the filter to air dry for 24-48 hours.

## TOOLS FOR EVERY MESS\*

### Turbo Tool

Remove pet hair and dirt from upholstery, stairs, and more.

### LED Crevice Tool OR Crevice Tool

Clean crevices and hard to reach areas. Attach at the end of the wand or handle to clean up high or down low.

### 2-in-1 Dusting Brush & Upholstery Tool OR Dusting Brush

Remove pet hair, dust, and dirt on upholstery, stairs, baseboards, and more.

\*Not all tools included on each model.
