ASSEMBLY

Step 1: Connect the Poles

Add 1 top, 2 middle and 1 bottom pole using 3 plastic connectors. Repeat until all 4 poles are completed. If one rod doesn't quite fit into a connector, no stress, just try another rod. Please contact us if you need replacements - www.winstonolive.com.

Step 2: Insert Poles into Canvas

Take one completed pole and insert into the bottom of the teepee sleeve, pushing it up to the top. Repeat with all 4 poles.

Step 3: Tie Poles Together

Thread the string through the pole and then teepee, alternating as you go. Pull on the ropes.

Spread out Teepee legs ensuring the poles fall in one similar direction (eg clockwise so it is concentric). Pull on the ropes. Tie up tight.

ACTIVATE DINOSAUR ROAR BUTTON

pull tab

- Slide button out of pocket on tent floor and remove the plastic battery tab at the back of the button;
- For battery replacement use 3x LR44 batteries;
- Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or re-chargeable batteries.

ACTIVATE LED LIGHTS & REMOTE CONTROL

- Lights require 3 x AA Batteries (not included);
- Remote Control requires 1 x CR2025 Batteries (not included);
- Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or re-chargeable batteries.

Activate lights by pressing the 'ON' button while pointing at the battery pack. Select the light mode by pressing either 1-8, see battery pack for description of these light modes.
