Myra Sable wins Woman Exporter of the Year Award

Myra Sable, president and founder of Sable & Rosenfeld, received the Woman Exporter of the Year Award at the Organization of Women in International Trade's (OWIT) gala recently held at the Toronto Region Board of Trade. This award recognizes Myra Sable as an industry leader successfully exporting to International Markets.

At the same time the company is months away from celebrating its 50th year of producing the most exceptional gourmet products. Myra recalls that the creation of Sable & Rosenfeld's Topsy Olives, Topsy Onions and Topsy Cherries, three of the most innovative cocktail garnishes of the 1980's, strengthened the Sable & Rosenfeld brand during the company's early days just as it continues today providing high quality, zestfully delicious and easy to use condiments for everyday living.

Myra Sable introduced her gourmet condiments to retailers in 1970 and has been winning awards and rave reviews ever since.

Look for Sable & Rosenfeld's award-winning products at specialty food stores and supermarkets, gift and department stores in Canada, the U.S., the Caribbean, Central and South America as well as the Middle East.
