

# The LIFT System - Lyte Industrial Folding Tower System

- 3T Compatible Folding Tower
- Folding base mechanism - a truly portable tower.
- Fits easily into most small vans or estate cars.
- Quick and easy to erect - saving time on each job.
- Narrow tower width - compact & easy storage.
- Quick release pull rings with stainless steel pin on all bracings for easy assembly.
- Smooth & ribbed texture on braces for quick identification.
- Certified to BSEN1004:2004

Image shows the use of colour coded braces, these do not come as standard.  
For more details contact 01639 846800.

★ Please remember - a thorough risk assessment must be carried out prior to any work be undertaken at height.

# Lyte Industrial Folding Tower System

Lyte Industries 3T Folding Tower is certified to BSEN1004:2004. This standard access system is quick and easy to assemble and store, and can be transported in smaller vans and estate cars.

Standard Stabiliser	0	4	4	4	4	0	0	0
Telescopic Stabiliser	0	4*	4*	4*	4*	4	4	4

### \*Optional components

A width of 700mm means you can work in even the trickiest of places safely, and a standard platform height of 0.6m can be increased with additional stages - providing adaptability for most domestic and maintenance work environments. All products are certified, where applicable, proving that health and safety continues to be a priority for Lyte Industries.

### Are you PASMA qualified?

Here at Lyte we have strengthened our commitment to our customers even further with the introduction of access industry training courses. We now offer the nationally recognised PASMA and BLMA courses to all our customers.

The Work at Height Regulations 2005 require that the assembly, dismantling or alteration of Mobile Access Towers should only be undertaken by being trained, under the supervision of a competent person.

training courses provided only by authorised training members. Lyte is proud to be one of these members.

These training courses are based on a format and content agreed by all PASMA members and draws upon their collective, first-hand experience. Widely recognised and recommended by safety professionals, it provides successful delegates who pass a written and practical test with a competency certificate and an encapsulated, credit card-sized Photo card.

### More information

For more information or to book the training course please contact the Lyte Training Coordinator on 01639 846800.
