Fit-Life Series Smart Watch

Assembling/disassembling

 To assemble/disassemble the watch band, please refer to the figure below:

2. To wear the watch properly, please refer to the figure below:

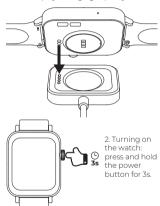

Note:

When wearing the watch, please keep it in comfortable contact with wrist skin (in proper tightness). Do not wear it on the wrist joint.

Charging & turning on

1. Charging the watch: Align the magnetic charging dock with the metal contact of the watch, connect the other end to the charger and connect power until the screen displays charging capacity.

Note:

When the watch indicates low battery, please charge it in time. It is recommended to use a charger with a rated output of 5V/IA or a computer USB port together with the included cable to charge it.

Downloading APP and pairing the watch

 Scan the QR code below or the QR code on the watch with your mobile phone to download the SMART-TIME PRO APP, register an account and log in.

Note: The phone system is required to be Android 6.0 or iOS 11.0 or above.

Google Play: SMART-TIME PRO

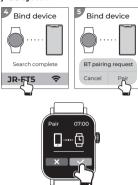

2. Open the APP, select Home "Device →Bind device→select "JR-FT5"→click Connect→click √ on your watch".

(1) iOS system

(2) Android system

When connecting for the first time, Android users need to click "To bind" in the "Call service pairing option" in the BT pairing prompt interface, and then complete BT 5.0+3.0 pairing according to the operation prompts.

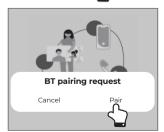

Call service pairing

Your watch supports the call service (3.0) After the call service is bound to the phone, you can make and receive calls on the watch

Select your device to connect in your phone's "Settings"> "BT"

- After binding successfully, you can start to use all the functions of the watch, and the data generated by it can also be saved to the APP synchronously.
- 4. If you need to unbind the watch, please open the APP, and select "Device→ Unbind"

Notes:

① Please keep the phone's BT function on during use, otherwise the messages on the phone cannot be synchronized to the watch;

Enable related APP permissions" on the APP, then relevant messages will be synchronized to the watch, such as call reminders and message reminders.

② Select "Device→Message reminder→
