

Evergreen Instructions

1.) Place tent on your crossbars and clamp the tent down using the supplied hardware.

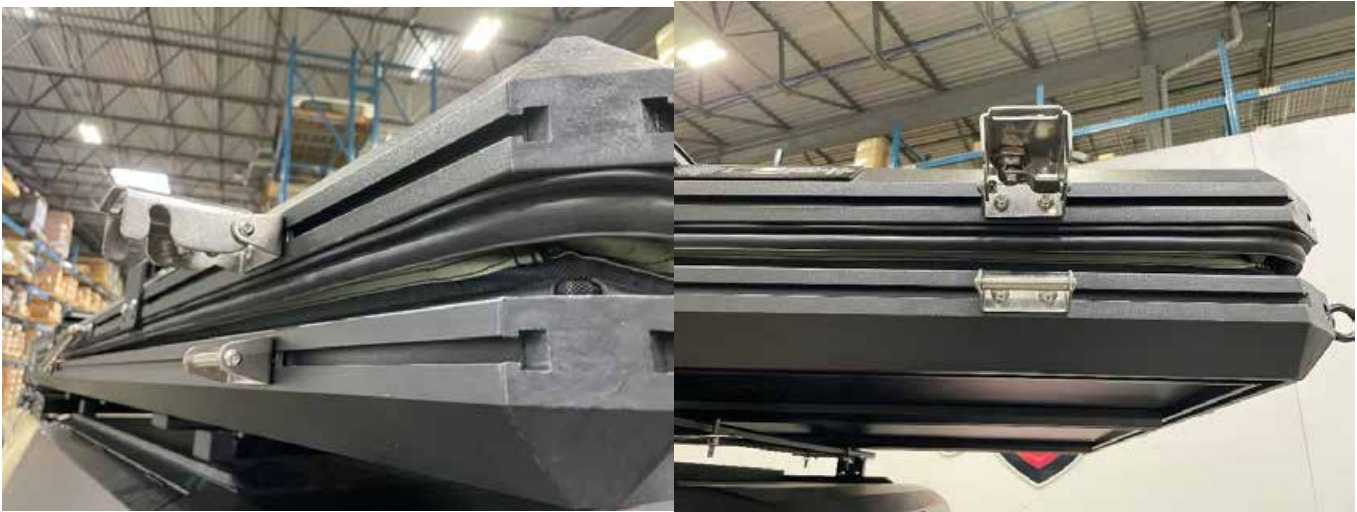

2.) Assemble supplied crossbars on bench and then install on tent using the supplied hardware. (The crossbars have two height settings, see red circles on image below. Set according to the accessories you're mounting on it.) Crossbar spacing on the tent is your choice.

3.) Install two main tent latches, one on each side of the tent using supplied hardware.

4.) Install ladder brackets using supplied hardware. (Ensure ladder brackets are spaced so the ladder fits onto them). Then install the awning rod supports and shoe bag eyelets.
