

Features:

- Highly Efficient inverter based welding Machine Suitable for Fabricating, Repairing metals.
- Advanced IGBT Technology Enables the Hot Start automatically preventing sticking.
- The Digital display on the machine displays the current at any given time during welding
- A cable kit is included with the purchase of this product.

Technical Data

Input Power Voltage (V)	AC 220V \pm 10%
Rated Input Power Capacity (KVA)	4.7 KVA
No Load Voltage	58V
Output Current	20-160A
Input Current	31A
Duty Cycle (%)	60
Electrode Size	2.0 / 2.5 / 3.2mm
Weight (Kg)	7kg
Dimension (mm)	335 x 130 x 230mm
