**GB** OUR COASTAL COLLECTION HAS BEEN DESIGNED TO WITHSTAND THE HARSHTEST WEATHER CONDITIONS.

A ten year warranty is offered on all products in the coastal collection, except those that have integral LED's or drivers, which are subject to our standard three-year warranty'.

Please note that natural brass is an untreated raw material and the finish will change over time. The structural integrity of the brass will remain, but as the product ages the surface will naturally oxidise and mottle, and in time will achieve a distinctive patina that is part of its charm. If you wish to maintain the original look of the brass for as long as possible, we recommend that the product is rinsed with fresh water every few months.

**FR** NOTRE COLLECTION CÔTIÈRE A ÉTÉ CONÇUE POUR RÉSISTER AUX CONDITIONS MÉTÉOROLOGIQUES LES PLUS DIFFICILES.

Une garantie de dix ans est offerte sur tous les produits de la collection côtière, à l'exception de ceux dotés de LED ou de drivers intégrés, qui sont soumis à notre garantie standard de trois ans.

Nous attirons votre attention sur le fait que le laiton naturel est un matériau brut non traité. Son rendu évolue donc dans le temps. L'intégrité structurelle du laiton reste inchangée mais au fur et à mesure du vieillissement du produit, la surface s'oxyde et se tachette naturellement. Avec le temps, il se patine de façon caractéristique, ce qui lui confère tout son charme. Si vous souhaitez conserver l'aspect original du laiton aussi longtemps que possible, nous vous conseillons de rincer le produit à l'eau claire régulièrement.

**DE** UNSERE COASTAL COLLECTION WURDE FÜR DIE HÄRTESTEN WITTERUNGSBEDINGUNGEN ENTWICKELT.

Für alle Produkte der Coastal Collection wird eine Garantie von zehn Jahren angeboten. Eine Ausnahme bilden alle Produkte mit integrierten LED's oder Treibern, für die unsere dreijährige Garantie gilt.

Bitte beachten Sie, dass Naturmessing ein unbehandeltes Material ist und sich das Aussehen der Oberfläche im Laufe der Zeit ändert. Die strukturelle Integrität des Messings bleibt erhalten, aber mit zunehmender Alterung oxidiert die Oberfläche auf natürliche Weise und läuft an. Mit der Zeit entsteht so eine charakteristische Patina, die einen Teil des Charmes des Produkts ausmacht. Wenn Sie das ursprüngliche Aussehen des Messings so lange wie möglich beibehalten möchten, empfehlen wir, das Produkt alle paar Monate mit Süßwasser abzuspülen.

**IT** LA NOSTRA COLLEZIONE COSTIERA È STATA PROGETTATA PER RESISTERE ALLE CONDIZIONI ATMOSFERICHE PIÙ DIFFICILI.

Una garanzia di dieci anni viene offerta su tutti i prodotti che ne fanno parte, ad eccezione di quelli con LED o driver integrati, che sono soggetti alla nostra garanzia triennale standard.

L'ottone naturale è una materia prima non trattata e la finitura può modificarsi nel corso del tempo. L'integrità strutturale dell'ottone rimane assicurata, ma con il passare del tempo la superficie tende ad ossidarsi naturalmente e a ricoprirsi di chiazze, formando una patina distintiva che rende il prodotto ancora più suggestivo. Se si desidera mantenere l'aspetto originale dell'ottone per più tempo possibile, si raccomanda di risciacquare il prodotto in acqua non salata ogni paio di mesi.

## LED DRIVERS\*

**GB** Most LED light fittings require a Driver to be used, which reduces the current from the mains down to the very small current needed by the LED. Astro supplies three types of LED light:

- ▶ Light fitting supplied with a Driver
- ▶ Driver supplied separately
- ▶ No Driver required (the light is designed to connect directly to the mains)

If your LED light requires a Driver, Astro offers a range of high quality Drivers from a number of reputable manufacturers that are designed to work on many commonly found dimmers and lighting control systems. Please refer to the 'Driver Guide' section on our website [astrolighting.com](http://astrolighting.com) for further information on choosing the right Driver, specification and installation.

**FR** La plupart des luminaires à LED nécessitent un Driver pour fonctionner : ce dispositif réduit le courant délivré par le secteur et le ramène à un courant très faible nécessaire au fonctionnement d'une LED. Astro propose 3 types de luminaires à LED :

- ▶ Luminaire équipé d'un Driver
- ▶ Driver fourni séparément
- ▶ Pas de Driver requis (le luminaire est conçu pour être directement branché sur le secteur)

Si votre luminaire à LED nécessite un Driver, Astro propose une gamme de Drivers haute qualité, issus de fabricants de renom, conçus pour fonctionner sur de nombreux variateurs et systèmes de contrôle de l'éclairage que l'on trouve communément. Pour obtenir de plus amples informations sur la façon de choisir le driver adéquat, sur les spécifications et l'installation, veuillez vous reporter à la section "Guide des drivers" de notre site web : [astrolighting.com](http://astrolighting.com)

**DE** Die meisten LED-Leuchten benötigen einen Treiber, der den Netzstrom auf den sehr niedrigen Strom, den die LED benötigt, reduziert. Astro liefert drei Arten von LED-Leuchten:

- ▶ Leuchten mit im Lieferumfang enthaltenem Treiber
- ▶ Treiber werden separat geliefert
- ▶ Kein Treiber erforderlich (die Leuchte kann direkt an das Stromnetz angeschlossen werden)

Sollte Ihre LED-Leuchte einen Treiber benötigen, bietet Astro Lighting eine Reihe hochwertiger Treiber von namhaften Herstellern an, die so konzipiert sind, dass sie mit vielen der geläufigsten Dimmern und Lichtsteuersystemen funktionieren. Weitere Informationen zur Auswahl des richtigen Treibers sowie zu Spezifikation und Installation finden Sie im Treiberleitfaden auf unserer Website [astrolighting.com](http://astrolighting.com).

**IT** La maggior parte degli apparecchi di illuminazione LED richiedono un driver, che riduce la quantità di corrente proveniente dalla rete al livello inferiore richiesto dal LED. Astro fornisce tre tipi di soluzioni di illuminazione LED:

- ▶ Apparecchio di illuminazione dotato di driver
- ▶ Driver fornito separatamente
- ▶ Nessun driver richiesto (l'apparecchio di illuminazione è ideato per collegarsi direttamente alla rete)

Se il vostro apparecchio di illuminazione LED richiede un driver, Astro offre una vasta gamma di driver di alta qualità forniti da diversi rinomati produttori, che sono ideati per funzionare sui dimmer e sistemi di controllo dell'illuminazione più comuni. Si veda la sezione 'Guida ai driver' sul nostro sito web [astrolighting.com](http://astrolighting.com) per ulteriori informazioni sulla scelta del driver ideale, per specifiche e modalità di installazione.
