

Data Sheet

Heating insulation caps for heating and domestic hot water valves

Description

Heating insulation caps support Danfoss valves with a minimum of heat loss through the valve, when mounted in heating and domestic hot water systems. The insulation caps consist of two interlocking

half shells, made of Polyurethane (PUR) hard foam covered with an approximately one mm thick shell of Polystyrene. The half shells are kept together with two stainless clamping rings.

Ordering

| Insulation cap for valve | Valve size | Code number |
|--|------------|-----------------|
| AB-QM pressure independent balancing and control valve | DN 10 | 003Z4730 |
| AB-QM pressure independent balancing and control valve | DN 15 | 003Z4731 |
| AB-QM pressure independent balancing and control valve | DN 20 | 003Z4732 |
| AB-QM pressure independent balancing and control valve | DN 25 | 003Z4733 |
| AB-QM pressure independent balancing and control valve | DN 32 | 003Z4734 |
| AB-QM pressure independent balancing and control valve | DN 40 | 003Z4735 |
| AB-QM pressure independent balancing and control valve | DN 50 | 003Z4736 |
| MSV-S partner valve/ball valve | DN 15 | 003Z4744 |
| MSV-S partner valve/ball valve | DN 20 | 003Z4745 |
| MSV-S partner valve/ball valve | DN 25 | 003Z4746 |
| MSV-S partner valve/ball valve | DN 32 | 003Z4747 |
| MSV-S partner valve/ball valve | DN 40 | 003Z4748 |
| MSV-S partner valve/ball valve | DN50 | 003Z4749 |
| MSV-F2 manual presetting valve | DN 65 | 003Z4739 |
| MSV-F2 manual presetting valve | DN 80 | 003Z4740 |
| MSV-F2 manual presetting valve | DN 100 | 003Z4741 |
| MSV-F2 manual presetting valve | DN 125 | 003Z4742 |
| MSV-F2 manual presetting valve | DN 150 | 003Z4743 |
| MTCV domestic hot water valve | DN 15 | 003Z4737 |
| MTCV domestic hot water valve | DN 20 | 003Z4738 |
