Bonnie & Mookie
Mother daughter duo, Co-founders

OUR STORY

Bonnie & Pop is a community story - a mother daughter duo on a mission to turn small moments into meaningful memories - the true gift of life.

The story dates back to the mid-1900s where two Eastern European immigrant families independently sent their children from small town Danielson, Connecticut to the Big Apple. Over the years Bonnie and Pop each got married creating their own large families and dedicating themselves to making a positive impact in their communities.

They did not see each other again until life came full circle in 1989 when Bonnie's son married Pop's daughter. These larger than life personalities inspired Co-founders, Connie & Mookie to continue the legacy of those who came before them - grandparents, Bonnie & Pop - gathered people around the table, sparked joy in shared experiences and fostered love & unity among their peers.

We pride ourselves on being a premium and innovative confections brand that curates delicious bites packaged with love and sourcing our offerings from a 100 year old family owned artisanal chocolatier. At Bonnie & Pop, we're all about spreading sweetness and inspiring our customers to create unforgettable memories among their families, friends and communities by gifting small moments of joy and indulgence.
