

# 5 principal checks to ensure success!

## CHECK 01

Check that all teachers and staff understand district food guidelines. Remind even those who don't have students with allergies the importance of following procedure.

## CHECK 02

Check that the school nurse has up-to-date food allergy resources to properly educate staff, students, teachers, and parents, and that the nurse has resources to manage all students with allergies, according to district guidelines.

## CHECK 03

Check that the school counselor has relevant food allergy resources needed to properly monitor the psycho-social impact on the child with the allergy and, if necessary, support the child in managing daily interactions.

## CHECK 04

Check that the classroom teacher has an understanding of food allergies and all necessary resources to provide for a safe & robust learning environment. Ensure that the nurse, counselor & teacher have reviewed any district and/or individual plans.

## CHECK 05

Check that communication between the school and the child's parent/guardians is strong.
