## THE BELLEZZA TRADITION

---

Our family has stood for  
the best quality for 40 years.

---

In 1975 Heinz Berberich established Berberich Coffeemachines in Ketsch. By doing so he laid the foundation for a new family tradition; since 1975 the centre of every conversation was about the bean. Brasilia, Elektra, Wega, Rancilio and a few other well known brands, including Mr Rossi became not only strong partners but also friends. Heinz Berberich did not only assist in developing and designing the famous Bremer Viva, but also improved one or the other espresso machine.

These days, we are using his 40 year long expert knowledge to create the best coffee machines on the market. Heinz Berberich last project was the Inizio.

Today, Udo Bohneberg and Alexander Loesch are following big footsteps and are bringing those traditions back to life by establishing Bellezza Espresso Machine GmbH.

Bellezza Espresso Machines are hand made and showcase the expertise in their quality and design.

Our  
Classic

---

# INIZIO

---

The beginning. The Bellezza brand was founded in 2017 with the development of Inizio. It is our pride, which can be seen in every single hand-assembled machine. The German CNC milling machine has shown its perfection. Each individual edge is subsequently welded and polished by hand. The highest quality materials and parts from Italy are used. The perfect assembly in a handpicked manufacture.

## Key facts about Inizio

---

Two Large Pressure Gauges | E61 with stainless steel group head | PID Control | Shot Timer | Insulated hot water and steam pipe | 1.8 L stainless steel boiler with insulation | ECO Mode | Side panels and feet 100% stainless steel | 2000W – 50/60Hz / 220-240 V

INIZIO R

INIZIO V

---

# CHIARA

---

Espresso is passion. That's why the Chiara bears one of the most beautiful Italian names. The Chiara is small and dainty with incredible performance. Contrary to the expectation Chiara would only be a Single Boiler System – Chiara is actually a full Heat Exchange Boiler system. So nothing stands in your way of your espresso and cappuccino enjoyment at home. The 1.8 liter stainless steel boiler – as well as the elegant PID with pre-infusion control complete the whole thing.

CHIARA

## Key facts about Chiara

The Bellezza Chiara impresses with its high-quality design | Very compact beautiful espresso machine | Bellezza stainless steel brew group head | PID Control | Temperature adjustment of the boiler possible | Shot Timer | Pre-infusion time adjustable | Side panels and feet 100% stainless steel 2000W – 50/60Hz/ 220-240 V

Small  
But  
Nice

For the love of Espresso

Love for espresso. Tradition. Elegance. Performance. This is how Valentina would describe herself. The extravagant side panels make her an eye catcher. Her traditional exterior and the narrow structure make every kitchen something special. You notice our attention to details on our Valentina – This is what makes Bellezza so special.

# VALENTINA

## Key facts about Valentina

The Bellezza Chiara impresses with its high-quality design | Very compact beautiful espresso machine | High Quality Bellezza group head with innovative stainless steel boiler | Pre-infusion time adjustable | Side panels and feet 100% stainless steel | 2000W – 50/60Hz/ 220-240 V

Valentina

BEAUTY  
& POWER

GULIA

---

# GULIA

---

The Gulia is the definition of beauty and power in one. The powerful heat exchange boiler machine will take you with its impressive steam power. The temperature consistency and the beautiful finish make preparing the morning espresso into something special.

The Gulia is the big brother to the Bellezza Chiara, using the same features plus more. Giving you access to instant hot water straight from the boiler.

The machine boasts PID temperature and shot time control as well as two pressure gauges for steam and pump pressure. The external glass water tank, ensures absolute temperature stability, rounds off the design.

## Key facts about Gulia

---

2 x Large pressure gauges | E61 with stainless steel brewing head | PID Control | Shot timer  
| Internal water tank | 1.8L stainless steel heat exchange boiler with Insulation | Hot Water &  
Steam | ECO mode | Side parts and feet 100% stainless steel | 2000W / 220V - 240V

DUAL  
BOILER

---

# FRANCESCA

---

The Francesca stands for power, beauty and design in one. The powerful dual boiler machine will take you with its impressive steam power. The temperature consistency and the beautiful finish make preparing the morning espresso into something special.

The machine boasts PID temperature and shot time control as well as two pressure gauges for steam and pump pressure. The external glass water tank, ensures absolute temperature stability, rounds off the design.

Finally, the Bellezza heat-up system quickly heats the brew group within 12 minutes to the set brewing temperature on the PID.

Francesca

## Key facts about Francesca

---

2 x Large pressure gauges | E61 with stainless steel brewing head | PID Control | Shot timer | External water tank | 1L stainless steel steam boiler with Insulation | 1L stainless steel brew boiler with Insulation | ECO mode | Side parts and feet 100% stainless steel 2900 W 220V / 240 V

---

# BELLONA

---

Bellona is perfection and enjoyment in one. By having absolute temperature stability, it creates an espresso to fall in love with. The Bellona's modern design, makes it an eye-catcher and the centre piece of your home.

The unique, steam, output power sets no limits to your creativity. Design beautiful latte art. The large, handy steam lever gives you the feeling of complete control.

The purest 304 stainless steel is used. The external glass water tank not only makes it easier to refill the water tank, it rounds off the design as a whole.

## Key facts about Bellona

---

Bellezza stainless steel 500ml brew boiler | 1L stainless steel steam boiler | Bellezza PID | No Contact with Copper | Programmable Volumetric Buttons | Cool Touch Steam Wand | External Glass Water Tank | Plumbable | Solenoid Activated Steam & Hot Water | Temperature setting of both boilers with PID | Shot timer | Pre-infusion time adjustable | 4 ECO Modes | 2000W / 220V - 240V

---

# PICCOLA 60 TITANIUM V2

---

The Piccola Titanio is our compact, but powerful coffee grinder for home use. It fulfills highest barista request and its 60mm titanium flat burrs guarantee outstanding grinding results. The bean container made of glass and the lid made of wood show, how much we, at Bellezza, value sustainable materials.

 PICCOLA

Bean container capacity: 250g Bean | Container material: glass | Titanium 60mm Flat Burrs | Two programmable buttons (time based) | Grinding speed 1.3-2.2g per/sec | Grinder Sound: 80-83 decibels | Stainless Steel body | Aluminum coffee spout | Micro-metric worm screw grind adjustment | 200W Motor
