

One Control Effects Power Adapter EPA-2000

The EPA-2000 adapter from One Control is an adapter with both large power capacity and analog noiseless power generation. This small and lightweight adapter provides a stable and clean power supply of a whopping 2000mA (2A). To keep the signal path clean for your pedalboard, our noise filter is also installed as standard. Power cable length is 1.5m.

- Large capacity, lightweight, compact AC power adapter designed for effects
- Industry standard center negative 2.1mm barrel type plug
- Equipped with a noise filter for a clean and stable power supply.
- Output voltage: DC9V
- Current capacity: 2000mA (2A)
