

## One Control Effects Power Adapter RPA-1000

The DC18V adapter RPA-1000 from One Control is a dedicated power supply for several of our effects.

This is a product-specific 18VDC 1000mA center minus adapter.

- Lightweight and compact AC adapter designed for effects
- Standard center minus, 2.1mm barrel type plug
- Equipped with a noise filter, it provides clean and stable power.
- Cable length: 1.5m
- Output voltage: DC18V
- Current capacity: 1000mA (1A)

※WARNING - Please be careful not to use it for effectors whose rated voltage is less than DC18V!
