

## How to MEASURE

1. Print out Size Finder.
  2. While your child is standing, align their heel with the "Place Heel Here" marking and draw a line at the tip of the longest toe. Repeat with the other foot and use the larger measurement, as little feet are often different sizes.
  - \* If your child will wear socks with their shoes, please measure their feet while wearing socks.
  3. Measure the distance from heel to toe and add a 1/2 inch (1.3cm), which allows for proper foot development and room to grow.
  4. Determine their size using the charts below, and you're done!
- \* Note: when in between sizes, it's best to choose the next size up.

### 'MY MOCS/MY MOCS BOOTS' Size Chart (inside length)

OUR SIZING* (in months)	US SIZING (Canada/US)	EU SIZING (Europe)	LENGTH ** (in inches)	
0-6	2.0-3.0	16-17	3.75"	(9.5cm)
6-12	3.5-4.0	18	4.25"	(10.8cm)
12-18	4.5-5.0	19	4.75"	(12cm)
18-24	5.5-6.5	20-21	5"	(12.7cm)
24-30	7.0-7.5	22	5.5"	(14cm)
30-36	8.0	23-24	5.75"	(14.6cm)

\*\*Add 1/2" to your child's foot measurement & select the length in the chart above to determine the correct size. \*\* le: child's longest foot is 4" - choose size 12-18M

### 'MY SHOES/MY BOOTS' Size Chart (inside length)

OUR SIZING* (in months)	US SIZING (Canada/US)	EU SIZING (Europe)	LENGTH (in inches)	
6-12	4.0-4.5	19	4.5"	(11.4cm)
12-18	5.0-5.5	20	5"	(12.7cm)
18-24	6.0-7.0	21-22	5.25"	(13.3cm)
24-30	7.5-8.0	23	5.75"	(14.6cm)
30-36	8.5-9.0	24	6"	(15.2cm)

Measure foot length when baby is standing.  
Allow 1/2" extra for growth when sizing.

While our shoes are based on a child's age range, it's important to measure your child's feet to make sure you are buying the best size for them!
