## Hardware For Reusable Wooden Crates

With TCH hardware components, builders can construct crates of any specification to meet specific transport needs.

Our latches and handles are fortified with a robust ridge to protect each piece against any potential damage incurred during transit.

From take-apart, lay-flat style reusable crates to fixed-structure crates, our hardware allows for the versatility needed to produce any type of crate.

### Protected & Padlockable Protected Surface Mount Latch: 501-423800 & 501-424800

- Easy to install, no cutting required.
- Steel rib surrounding latch for protection.
- Coil Springs are protected under the mounting plate and automatically compensates for up to 0.16" [4mm] misalignment.
- Twist Latch is staked to prevent latch from falling open.

### Large Keeper Plate: 501-541800

- Steel strike, sold separately from latches.
- Can also be used as a 90 degree strike on crates.

### Large Surface Mount Twist Catch - 501-2443800

- Flat cam for lower profile, ideal for crates.
- Easy operation actuated by fingertip pressure on the wing.
- 180 degree turn locks and unlocks the unit.
- Strike sold separately .

### Surface Mount Protected Handle: 500-140800

- Heavy duty surface mount handle with protective steel rib.
- Bail springs back into position when not in use.

TCH also carries a wide selection of Casters and Foam Sheets.
