

Ultra Rich Hand Therapy

The Ultra Rich hydrating treatment restores moisture to dry skin for up to 12 hours. Infused Vitamins, Oat Proteins and Hibiscus extracts to brighten and soothe your hands. Helps fight signs of aging on the hands.

WHAT MAKES ME DIFFERENT?

The range is a combination of UV absorbers, healing actives, pH adjusters and ingredients to improve collagen production. It also contains active skin protectors and vitamins for skin restoration. This is no ordinary hand cream that only hydrates. It is active from all sides.

HOW DO YOU APPLY ME?

Use as often as required, applying a generous amount to the back of the hand.

WHAT ARE MY ACTIVES AND BENEFITS?

Lactic Acid reduces the appearance of wrinkles on the outer hands.

Avobenzone absorbs the full spectrum of UVA rays.

Niacinimide is a skin-restoring ingredient that assists with uneven skin tone.

Uvinul A Plus reflects UVA rays.

Ethylhexyl Triazone absorbs UVB radiation.

Billberry Extract is a natural active used for skin lightening.

Hydrolyzed Oat Protein is the alternative hydrator to make the formula GMO and Gluten Free

NEW IDEAS

Never wash your hands after applying hand creams

Apply hand cream to the back of your hand and rub against the back of your other hand. Remember it is the back of the hand that needs exposure to products, not the palms where we tend to concentrate our treatment.
