

HOW TO USE YOUR

Leather Care Kit

We are so happy you decided to take extra care of your VanVeer!
This Leather Care Kit is carefully chosen, and includes specialized products
to keep your VanVeer looking amazing and make it last longer.

vanVeer

Clean

If your VanVeer gets stained by accident, please be gentle when cleaning. The TARRAGO UNIVERSAL CLEANER is a liquid cleaner suitable for all colors and leathers. Apply it with the BAMBU CLOTH APPLICATOR and carefully remove stains on your bags by rubbing it gently.

Nourish

For best results, follow up your cleaning by nourishing it with TARRAGO PREMIUM DELICATE CREAM. This cream is made with natural oils and waxes like aloe vera and beeswax. Its formula is ideal to nourish and clean smooth leather. Use it once a month to keep the leather smooth and rejuvenated, or whenever you want to give your bag some extra TLC.

Protect

The TARRAGO WATER-BASED PROTECTOR creates a durable and breathable barrier that effectively protects your bags and accessories against rain or snow, and penetration of any kind of dirt, oil, stain, and drinks. Use it once a week to keep your VanVeer protected from all moisture and keep it stain-free. Your bag will thank you for it by looking better and lasting longer!

Dry

If your VanVeer gets wet: Dry it slowly. Speed drying leather changes its chemical structure, and you end up with stiff crinkle cut chaos. Drying at room temperature with gentle air works better than using your hair-dryer. And remember to keep it in the shape you want it to end up!

Discoloration

It's normal that leather slightly changes color over time due to sunlight and rain. Protecting the leather with TARRAGO WATER-BASED PROTECTOR and nourishing it with TARRAGO PREMIUM DELICATE CREAM slows this process down.
